# AMERICAN SAMOA

## NUMBER OF INHABITANTS

Population of American Samoa.—American Samoa was acquired by the United States in accordance with a convention between the United States, Great Britain, and Germany, signed December 2, 1899, ratified February 16, 1900, and proclaimed by the President of the United States on the latter date. Under an Executive order of February 19, 1900, the islands were placed under the authority of the Secretary of the Navy for use as a naval station. The high chiefs of the Tutuila voluntarily ceded the islands of Tutuila and Aunuu to the United States on April 17, 1900; and the islands of the Manua group (Tau, Olosega, and Ofu) were ceded by their high chiefs on July 16, 1904. By joint resolution of Congress, approved March 4, 1925, Swains Island was annexed to American Samoa.

The population of American Samoa on April 1, 1940, according to the Sixteenth Census, was 12,908, which represents an increase of 2,853, or 28.4 percent, as compared with the population of 10,055 on April 1, 1930. The total land area of American Samoa is 76 square miles. The average number of inhabitants per square mile in 1940 was 169.8, as compared with 132.5 in 1930.

Table 1 shows the population of American Samoa from 1900, the year in which the first census was taken, to 1940, together with the increase during each intercensal period. Local censuses of population were taken by the naval governors in 1900 and 1912. In 1920, 1930, and 1940 the population of the islands was enumerated in conjunction with the regular decennial censuses of the United States, the field work being done under the supervision of the naval governor in accordance with plans prescribed by the Director of the Census. Capt. Edward W. Hansen, United States Navy, who was governor in April 1940, was in charge of the Sixteenth Census canvass of American Samoa.

Districts and islands.—American Samoa is divided into four districts: Manua District, comprising Ofu, Olosega, and Tau Islands; the Eastern District of Tutuila Island, which also includes Aunuu Island; the Western District of Tutuila Island; and Swains Island. Table 2 shows the population of these four districts from 1920 to 1940, and also the population of the individual islands. Rose Island, a coral atoll included in the American Samoa group, was uninhabited in 1940.
