Lieutenant Governor

A MESSAGE FROM THE GOVERNOR OF GUAM

Hafa Adai! I am pleased to present to you Guam's first "2004 Guam Statistical Yearbook" which provides a comprehensive collection of social, economic, and demographic data on Guam's economic development and progress.

In the early part of this Administration, our people faced dramatic economic challenges, social and natural hardships. The Asian economic decline, the devastation caused by Supertyphoon Pongsona, the repercussions of the 9-11 terrorist attacks, resulted in business closures and jobs lost.

Today, our island is experiencing economic growth and the delivery of services to the people of Guam is improving. Increased military activity, record-breaking visitor arrivals, rising employment, and improvements in infrastructure development have contributed to Guam's economic recovery and stabilization.

Recognizing the value of reliable and accurate statistical information for research, planning, and policymaking purposes, the summary tables contained in this report will provide our government and private sector with the mechanism needed to develop immediate and long range plans to stimulate ever greater economic growth and improve the quality of life for our people. I am confident that the statistical information contained in this report will serve as a useful instrument locally and abroad.

A heartfelt congratulations to the management and staff of the Bureau of Statistics and Plans, government of Guam agencies and numerous others whose efforts and valuable contributions have made this publication possible. These statistics are a measurement of how far we have come and the brighter future we continue to build. Thank you and Si Yu'us Ma'ase'.

Sinseru yan Magåhet,

A handwritten signature in blue ink, appearing to read 'F. Camacho'.

FELIX P. CAMACHO
I Maga' Låhen Guahan
Governor of Guam

THE HONORABLE
FELIX P. CAMACHO
GOVERNOR OF GUAM

THE HONORABLE
KALEO S. MOYLAN
LIEUTENANT GOVERNOR

Bureau of Statistics and Plans
BUREAU OF PLANNING
Government of Guam

ANTHONY P. SANCHEZ
ACTING DIRECTOR

A MESSAGE FROM THE DIRECTOR

Hafa Adai! The Bureau of Statistics and Plans takes great pleasure in presenting you the “2004 Guam Statistical Yearbook” as part of our commitment to meet the public’s growing need for information and to improve data dissemination. This sourcebook is a compilation of current and historical data that reflects Guam’s social, civic, and economic trends and performance over time. The rich source of information this publication represents paints a portrait of Guam’s people, their values, environment and realities.

The Guam Statistical Yearbook provides information that will promote economic diversification and prosperity for our people. Guam’s economy continues to improve from increased tourism, the emerging military presence, job creation opportunities, and construction. Now our government, business and civic leaders will be better equipped to develop immediate and long range plans to address our island’s needs, generate investment and provide incentives to establish Guam’s place in our corner of the world.

A heartfelt “*Dangkulo Na Si Yu’os Ma’ase*” to the Bureau of Statistics and Plans staff for their dedication and many hours committed to this effort as well as to the many Government of Guam agencies, businesses, civic associations and countless others whose valuable contributions have made this publication possible. I also wish to express our special thanks to the Office of Insular Affairs, U.S. Department of Interior for providing technical assistance and support in this effort.

It is hoped that the information contained in this report will serve as a useful resource tool to satisfy your data requirements and future planning needs. We look forward to your input on the type of data you would like to see as we begin to update next year’s Statistical Yearbook.

Sinseru yan Magâhet,

ANTHONY P. SANCHEZ
Acting Director
Bureau of Statistics and Plans

Source: U.S. Bureau of the Census 1990 CPH-6 "Social, Economic and Housing Characteristics; Guam".

Note: "Other Dependents" are dependents of retired members of the Armed Forces of the United States, or of active-duty or retired members of the full-time National Guard or Armed Forces Reserve. "Other Civilians" are those who are not active-duty members of the Armed Forces, National Guard, or Reserve. "Active Duty" does not include active-duty in the military reserves or National Guard for the 4-6 months of initial training or yearly summer camp.

"Of Active-Duty Member" = either former or retired active duty member.

1/ Data for detailed occupations does not sum to the totals because the totals include data for occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported data survey.

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Hourly wage rates for occupations where workers typically work fewer than 2,080 hours per year are not available.

5/ This wage is equal to or greater than \$70.00 per hour or \$145,600 per year.

6/ Estimates not released.

Note: Income quintiles are developed directly from households or personal income totals and then divided into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households on the basis of income; the highest quintile is the highest 20 percent on the same basis.

Glossary

Ruins of ancient columns on Tinian.

-A -

Age-Sex Structure	The age-sex structure is the composition of a population as determined by the number or proportion of males and females in each age category. The age-sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age-sex composition is essential for the description and analysis of many other types of demographic data. See also <i>Population Pyramid</i> .
Average	The average is the amount obtained by dividing the aggregate or total of a particular variable in the statistical universe by the number of units in that universe.

- B -

Birth	A birth (live birth) is the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.
Birth Rate	The birth rate is the number of live births per 1,000 population in a given year. It should not be confused with the growth rate. See also <i>Growth Rate</i> .

- C -

Census	A census is the canvassing of a given area, resulting in an enumeration of the entire population and often the compilation of other demographic, social, and economic information pertaining to that population at a specific time. See also <i>Survey</i> .
Census Designated Place	Census designated places (CDP) are delineated for each decennial census to provide census data for concentrations of population, housing, and commercial structures that are identifiable by name but are not within an incorporated place. CDP boundaries usually are defined in cooperation with state, local, and tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. All places in Guam are CDPs.
Childbearing Years	Childbearing years is the reproductive age span of women, assumed for statistical purposes to be 15-44 or 15-49 years of age.
Civilian	A civilian is a person who is not in the armed forces, including dependent members of the armed forces.
Civilian Labor Force	The civilian labor force is all persons 16 years and older employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed, Unemployed, and Not in Labor Force</i> .

Cohort	A group of people sharing a common temporal demographic experience who are observed through time. For example, the birth cohort of 1900 is the people born in that year.
Consumer Price Index	The Consumer Price Index (CPI) measures the rate at which the prices of consumer goods and services are changing over time. In practice, most CPIs are calculated as weighted averages of the percentage price changes for a specified set, or “basket”, of consumer products, the weights reflecting their relative importance in household consumption in some period. A monthly or quarterly price index compiled and published by an official statistical agency that measures changes in the prices of consumption goods and services acquired or used by households.
Crude Birth Rate	See <i>Birth Rate</i> .
Crude Death Rate	See <i>Death Rate</i> .
Crude Divorce Rate	See <i>Divorce Rate</i> .

- D -

Death	Death is the permanent loss of all evidence of life after a live birth has occurred.
Death Rate	The death rate is the number of deaths per 1,000 population in a given year.
Density	Population density and housing unit density are computed by dividing the total population or number of housing units within a geographic entity by the land area of that entity measured in square kilometers or square miles. Density is expressed as both “people (or housing units) per square kilometer” and “people (or housing units) per square mile” of land area.
Dependency Ratio	The ratio of the economically dependent part of the population to the productive part; arbitrarily defined as the ratio of the elderly (ages 65 and older) plus the young (under age 15) to the population in the working ages (ages 15-64).
Disability Status	<p>Disability status was derived from answers to two Census questionnaire items. The first asked about the existence of the following long-lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment (sensory disability) and (b) a condition that substantially limits one or more basic physical activities, such as walking, climbing stairs, reaching, lifting, or carrying (physical disability) for the population 5 years old and over.</p> <p>Disability status was also determined by asking if the individual had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform activities in four categories: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self-care disability); (c) going outside the home alone to shop or visit a doctor’s office (going outside the home</p>

disability); and (d) working at a job or business (employment disability). Individuals were classified as having a disability if any of the following three conditions were true: (1) they were 5 years old and over and had a response of “yes” to a sensory, physical, mental or self-care disability; (2) they were 16 years old and over and had a response of “yes” to going outside the home disability; or (3) they were 16 to 64 years old and had a response of “yes” to employment disability.

Divorce A divorce is the legal termination of a marriage.

Divorce Rate The divorce rate is the number of divorces per 1,000 population in a given year.

- E -

Educational Attainment The classification of people according to the level of education attained (the highest level of school completed or the highest degree received).

Election District An election district is the official term for what is commonly called a “village”; there are the nineteen (19) election districts or villages on Guam.

Employed All civilians 16 years old and over were classified as employed if they were “at work” or “with a job but not at work” during the reference week, including temporarily absent. See also *Unemployed* and *Not in Labor Force*.

Ethnic Origin Ethnic origin refers to an individual’s origin or descent, “roots,” heritage, or place where the individual or his/her parents or ancestors were born. Respondents reported their ethnic group regardless of the number of generations removed from their place or origin. Responses to the ethnic origin or race question reflected the groups with which respondents identified and not necessarily the degree of attachment or association the individual had with the particular group(s). See also *Race*.

Ethnicity The cultural practices, language, cuisine, and traditions — not biological or physical differences — used to distinguish groups of people.

- F -

Family A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder’s family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

Family Income	In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.
Fertility	The data on fertility (also referred to as “children ever born”) were derived from the answers to the Census question which asked women 15 years old and over—regardless of their marital status—how many babies they have ever had. Stillbirths, stepchildren, and adopted children were excluded from the number of children ever born. Data are most frequently presented in terms of the aggregate number of children ever born to women in specified population groups and in terms of the rate per 1,000 women.
Fetal Death	A fetal death is a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy; the death is indicated the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.
Freely Associated States	The Freely Associated States (FAS) consists of the Federated States of Micronesia (FSM), Republic of the Marshall Islands (RMI), and the Republic of Palau. Formerly a part of the Trust Territory of the Pacific Islands (TTPI), they became independent nations in free association with the United States.

- G -

General Fertility Rate	The general fertility rate (GFR) is the number of live births per 1,000 women ages 15-44 or 15-49 years in a given year.
Group Quarters	<p>Group quarters is used to describe places in which people reside that are not considered “housing units,” such as prisons, long-term care hospitals, military barracks, and dormitories. The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized:</p> <ol style="list-style-type: none"> (1) the institutionalized population which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration. Such people are classified as “patients or inmates” of an institution regardless of the availability of nursing or medical care, the length of stay, or the number of people in the institution. Generally, the institutionalized population is restricted to the institutional buildings and grounds (or must have passes or escorts to leave) and thus have limited interaction with the surrounding community. Also, they are generally under the care of trained staff who have responsibility for their safekeeping and supervision, and (2) the noninstitutionalized population which includes people who live in group quarters other than institutions. It also includes staff

residing in military and nonmilitary group quarters on institutional grounds who provide formally authorized, supervised care or custody for the institutionalized population.

Gross Reproduction Rate The gross reproductive rate (GRR) is the average number of daughters that would be born alive to a woman (or group of women) during her lifetime if she passed through her childbearing years conforming to the age-specific fertility rates of a given year. See also *Net Reproduction Rate* and *Total Fertility Rate*.

Growth Rate The growth rate is a general expression of the number of people added to (or subtracted from) a population in a year due to natural increase and net migration expressed as a percentage of the population at the beginning of the time period.

- H -

Homeless According to the Stewart B. McKinney Act, 42 U.S.C. § 11301, et seq. (1994), a person is considered homeless who "lacks a fixed, regular, and adequate night-time residence and; and... has a primary night time residency that is: (A) a supervised publicly or privately operated shelter designed to provide temporary living accommodations... (B) an institution that provides a temporary residence for individuals intended to be institutionalized, or (C) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings." 42 U.S.C. § 11302(a) The term "'homeless individual' does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a state law." 42 U.S.C. § 11302(c).

Household A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) Separate living quarters are those in which the occupants live separately from any other people in the building and that have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Household Income Household income is the sum of all incomes of all members 15 years old and over of a household which are treated as a single amount.

Housing Unit A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. See also *Tenure*.

- I -

Income Income is the wages or revenue accruing from labor, business enterprise, or investments. See also *Household Income*, *Family Income*, *Individual Income*, *Mean Income*, *Median Income*, and *Per Capital Income*.

Individual Income	Income for individuals is obtained by summing the total income for each person.
Immigration	Immigration is the process of entering one country from another to take up permanent or semipermanent residence.
Industry	Industry relates to the kind of business conducted by a person's employing organization described by its economic product or activity.
Infant Death	An infant death is a death occurring to an individual of less than one year of age
Infant Mortality Rate	The infant mortality rate is the number of deaths of infants under one year of age per 1,000 live births in a given year.

- L -

Labor Force	The labor force is all persons employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Life Expectancy	Life expectancy is the average number of additional years a person could expect to live if current mortality trends were to continue for the rest of that person's life. It is most commonly cited as life expectancy at birth.

- M -

Marriage	A marriage is a social institution involving legal or religious sanction whereby a man and a woman are joined together for the purpose of founding a family unit (traditional).
Maternal Death	A maternal death is a death wherein the physician has designated a maternal condition as the underlying cause of death.
Mean	This measure represents an arithmetic average of a set of values. It is derived by dividing the sum (or aggregate) of a group of numerical items by the total number of items in that group.
Mean Age	The mathematical average age of all the members of a population.
Mean Income	Mean income is the amount obtained by dividing the aggregate income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households.
Median	The median divides a distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median. This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of n data values. The median

divides the total frequency distribution into two equal parts: one-half of the cases falling below the median and one-half above the median.

Median Age The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.

Median Income The median divides the income distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median. For households and families, the median income is based on the distribution of the total number of households and families including those with no income.

Migration The movement of people across a specified boundary for the purpose of establishing a new or semipermanent residence. Divided into international migration (migration between countries) and internal migration (migration within a country).

Minor Civil Division Minor Civil Divisions (MCD) are the primary governmental or administrative divisions of a first-order subdivision. On Guam, they are Guam's election districts (villages). The MCDs in Guam are geographic subdivisions of the first-order subdivision(s) and are not governmental units.

Mortality Mortality is a general term for deaths as a component of population change.

- N -

Natality Natality is a general term for births as a component of population change.

Natural Increase (Decrease) The surplus (or deficit) of births over deaths in a population in a given time period.

Neonatal Death A neonatal death is death occurring to an individual of less than 28 days of age.

Neonatal Mortality Rate The neonatal mortality rate is the number of deaths of infants under 28 days of age in a given year per 1,000 live births in that year.

Net Migration The net effect of immigration and emigration on an area's population in a given time period, expressed as an increase or decrease.

Net Migration Rate The net effect of immigration and emigration on an area's population, expressed as an increase or decrease per 1,000 population of the area in a given year.

Net Reproduction Rate The net reproduction rate (NRR) is the average number of daughters that would be born to a woman (or a group of women) if she passed through her lifetime conforming to the age-specific fertility and mortality rates of a given year. This rate is similar to the gross reproduction rate but takes into account that some women will die before completing their childbearing

years. An NRR of one means that each generation of mothers is having exactly enough daughters to replace itself in the population. See also *Total Fertility Rate*.

Not in Labor Force

All people 16 years old and over who are not classified as members of the labor force. This category consists mainly of students, individuals taking care of home or family, retired workers, seasonal workers enumerated in an off-season who were not looking for work, institutionalized people (all institutionalized people are placed in this category regardless of any work activities they may have done in the reference week), and people doing only incidental unpaid family work (fewer than 15 hours during the reference week). See also *Employed* and *Unemployed*.

Nuptiality

Nuptiality is the general term for the frequency, characteristics, and dissolution of marriages in a population.

- O -

Occupation

Occupation describes the kind of work a person does on the job or a position in the labor force..

- P -

Part I Offense

Part I Offenses is the first of two main groupings of Uniform Crime Reporting Program (UCR) crime classifications consisting of eight offenses reported whether or not they involve arrests:

1. Criminal Homicide,
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary
6. Larceny-theft (except motor vehicle theft)
7. Motor Vehicle Theft
8. Arson

See also *Part II Offences* and *Uniform Crime Report*.

Part II Offense

Part II Offenses is the second of the two main Uniform Crime Reporting Program (UCR) groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Law enforcement agencies report to the FBI only arrest data involving the Part II crimes:

9. Other Assaults
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property: Buying, Receiving, Possessing

14. Vandalism
15. Weapons: Carrying, Possessing, etc.
16. Prostitution and Commercialized Vice
17. Sex Offenses
18. Drug Abuse Violations
19. Gambling
20. Offenses Against the Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses
27. Suspicion
28. Curfew and Loitering Laws—(Persons under 18)
29. Runaways—(Persons under 18)

See also *Part II Offences* and *Uniform Crime Report*.

Per Capita Income	The per capita income is the amount obtained by dividing the aggregate income of all individuals, including those without incomes, by the total number of individuals.
Percentage	This measure is calculated by taking the number of items in a group possessing a characteristic of interest and dividing by the total number of items in that group, and then multiplying by 100.
Permanent Resident	A permanent resident is any person not a citizen of the United States who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant (also known as "Permanent Resident Alien", "Lawful Permanent Resident," "Resident Alien Permit Holder," and "Green Card Holder"). See also <i>Temporary Resident</i> .
Place	Places, for the reporting of decennial census data for the Pacific Island Areas, include census designated places (CDP) and incorporated places.
Population	The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended.
Population Estimate	Population estimates are approximations of current or past population of an area at a given time, or its distribution or composition in absence of complete enumeration.
Population Density	The population density is the population per unit of land area; for example, people per square mile or people per square kilometer of arable land.
Population Projection	Population projections are the computations of future changes in population numbers, given certain assumptions about future trends in the rates of

fertility, mortality, and migration. Demographers often issue low, medium, and high projections of the same population, based on different assumptions of how these rates will change in the future.

Population Pyramid

A bar chart, arranged vertically, that shows the distribution of a population by age and sex. By convention, the younger ages are at the bottom, with males on the left and females on the right.

Poverty

Poverty is an economic and social condition for an individual, family, or household whose level of living in terms of food, housing, clothing, medical needs, and so on are determined to be below the community standard.

Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14 (1978), the Census Bureau uses a set of money income thresholds designed in the 1960s that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation using the Consumer Price Index (CPI-U). The official poverty definition counts money income before taxes and does not include capital gains and noncash benefits (such as public housing, medicaid, and food stamps). Poverty is not defined for people in military barracks or institutional group quarters or for unrelated individuals under age 15 (such as foster children). They are excluded from the poverty universe — that is, they are considered neither as “poor” nor as “nonpoor.”

Poverty Status

For the 2000 Census, the poverty status of families and unrelated individuals in 1999 was determined using 48 thresholds (income cutoffs) arranged in a two dimensional matrix. The matrix consists of family size (from 1 person to 9 or more people) cross-classified by presence and number of family members under 18 years old (from no children present to 8 or more children present). Unrelated individuals and 2-person families were further differentiated by the age of the reference person (RP) (under 65 years old and 65 years old and over).

To determine a person's poverty status, one compares the person's total family income with the poverty threshold appropriate for that person's family size and composition. If the total income of that person's family is less than the threshold appropriate for that family, then the person is considered poor, together with every member of his or her family. If a person is not living with anyone related by birth, marriage, or adoption, then the person's own income is compared with his or her poverty threshold.

- Q -

Quartile

Quartile is a measure that divides a distribution into four equal parts. The first quartile (or lower quartile) is the value that defines the upper limit of the lowest one-quarter of the cases. The second quartile is the median. The third quartile (or upper quartile) is defined as the upper limit of the lowest

three quarters of cases in the distribution. Quartiles are presented for certain financial characteristics, such as housing value and contract rent. The distribution used to compute quartiles is the same as that used to compute medians for that variable.

Quintile Quintile is a measure that divides a distribution into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households; the highest quintile is the highest 20 percent on the same basis.

- R -

Race The racial classification used by the Census Bureau adheres to the October 30, 1997, Federal Register Notice entitled “Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity” issued by the Office of Management and Budget (OMB). These standards govern the categorization of race in census data products. The OMB identified five minimum race categories (White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander). In addition to the five race groups, the OMB also states that respondents should be offered the option of selecting one or more races. See also *Ethnic Origin*.

Rate A rate is a measure of occurrences in a given period of time divided by the possible number of occurrences during that period. Rates are sometimes presented as percentages.

**Rate of Natural Increase
(or Decrease)** The rate of natural increase (or decrease) measures the population increase (or decrease) in a given year due to a surplus (or deficit) of births over deaths, expressed as a percentage of the base population.

Ratio A ratio is a measure of the relative size of one number to a second number expressed as the quotient of the first number divided by the second. For example, the sex ratio is calculated by dividing the total number of males by the total number of females, and then multiplying by 100.

Rural See *Urban and Rural*.

- S -

Sex Ratio The sex ratio is a measure derived by dividing the total number of males by the total number of females, and then multiplying by 100.

Survey A survey is a canvass of selected persons or households in a population usually used to infer demographic characteristics or trends for a larger segment or all of the population. See also *Census*.

- T -

Temporary Resident A temporary resident is a nonimmigrant alien who seeks temporary entry to the United States for a specific purpose. The alien must have a permanent residence abroad (for most classes of admission) and qualify for the nonimmigrant classification sought. The nonimmigrant classifications include: foreign government officials, visitors for business and for pleasure, aliens in transit through the United States, treaty traders and investors, students, international representatives, temporary workers and trainees, representatives of foreign information media, exchange visitors, fiancé(e)s of U.S. citizens, intracompany transferees, NATO officials, religious workers, and some others. Most nonimmigrants can be accompanied or joined by spouses and unmarried minor (or dependent) children. See also *Permanent Resident*.

Tenure Tenure represents the condition or nature by which occupancy of a housing unit is held. All occupied housing units are classified as either owner occupied or renter occupied. A housing unit is owner occupied if the owner or co-owner lives in the unit even if it is mortgaged or not fully paid for. All occupied housing units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter occupied.

Total Fertility Rate (TFR) The total fertility rate is the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age-specific fertility rates of a given year. This rate is sometimes stated as the number of children women are having today. See also *Gross Reproduction Rate* and *Net Reproduction Rate*.

- U -

Unemployed All civilians 16 years old and over were classified as unemployed if they were neither “at work” nor “with a job but not at work” during the reference week, were looking for work during the last 4 weeks, and were available to start a job. Also included as unemployed were civilians 16 years old and over who: did not work at all during the reference week, were on temporary layoff from a job, had been informed that they would be recalled to work within the next 6 months or had been given a date to return to work, and were available to return to work during the reference week, except for temporary illness. See also *Employed* and *Not in Labor Force*.

Uniform Crime Report (UCR) Uniform crime reporting is a collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the Uniform Crime Reporting (UCR) Program provide summarized reports on eight Part I offenses known to law enforcement and reports on persons arrested. They also provide information about law enforcement officers killed and assaulted and on hate crime.

The UCR Program divides offenses into two groups—Part I and Part II. The Program collects data on all Part I offenses that become known to law enforcement whether or not they involve arrests. These crime totals are essential to measuring the level and scope of crimes occurring across the country. Part II offenses are all crime classifications other than those defined as Part I. The UCR Program collects arrest data for both Part I and Part II offenses. See also *Part I Offenses* and *Part II Offenses*.

Urban and Rural

The U.S. Census Bureau classifies as urban all territory, population, and housing units located within urbanized areas (UAs) and urban clusters (UCs). It delineates UA and UC boundaries to encompass densely settled territory, which generally consists of:

- A cluster of one or more block groups or census blocks each of which has a population density of at least 1,000 people per square mile at the time, and
- Surrounding block groups and census blocks each of which has a population density of at least 500 people per square mile at the time, and
- Less densely settled blocks that form enclaves or indentations, or are used to connect discontinuous areas with qualifying densities.

Rural consists of all territory, population, and housing units located outside of UAs and UCs. Geographic entities such as first-order subdivisions, minor civil divisions, and places often contain both urban and rural territory, population, and housing units.

The urban and rural classification applies to the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands of the United States.

There are UCs in all the Pacific Island Areas, but only the Northern Mariana Islands has a UA (Saipan).

Urban Cluster (UC)

An urban cluster (UC) consists of densely settled territory that has at least 2,500 people but fewer than 50,000 people, except in Guam. By agreement with the Government of Guam, the U.S. Census Bureau recognizes Hagåtña as a UC rather than an urbanized area.

Urbanized Area (UA)

An urbanized area (UA) consists of densely settled territory that contains 50,000 or more people, except in Guam (see below). The U.S. Census Bureau delineates UAs to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places.

- V -

Veterans Status

For Census data products, a civilian veteran is a person 18 years old and over who, at the time of the enumeration, had served on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard in the past

(even for a short time), but was not then on active duty, or who had served in the Merchant Marine during World War II. People who had served in the National Guard or Military Reserves were classified as veterans only if they had ever been called or ordered to active duty, not counting the 4 to 6 months for initial training or yearly summer camps. All other civilians 18 years old and over were classified as nonveterans.

Vital Statistics

Vital statistics is the collection of Demographic data on births, deaths, fetal deaths, marriages, divorces, and related events usually compiled through a registration system or other administrative record system.

2005 STATE OF THE ISLAND ADDRESS
GOVERNOR FELIX P. CAMACHO

STATE OF THE ISLAND
GOVERNOR FELIX P. CAMACHO

February 21, 2005

Hafa Adai and Good morning. Before I begin, I would like to recognize and honor the families of courageous men... who paid the ultimate sacrifice in this difficult time of war. Today, before the people of Guam, we honor the families of:

- Ferdinand Ibaobao
- Jonathan Jose Santos
- Christopher Jude Rivera Wesley
- Jaygee Meluat
- Eddie Chen
- Skipper Soram
- Michael Aguon Vega
- And Steven Bayow

It is only fitting that on this President's day... as we commemorate the leaders of our great nation who shaped the principles we hold dear ... those of freedom,.. democracy,.. and opportunity for each citizen we also remember those who paid the ultimate sacrifice.. to uphold those very principles.

Mr. Speaker, Mr. Chief Justice, and all distinguished guests ... It is my honor to come before the people of Guam today to deliver this, my third State of the Island Address.

Members of the new 28th Guam Legislature, congratulations on your successful election, a clear mandate from the people: to cooperate, to work together... and to produce results. This election was no accident! Our people expect change, they expect success.

We are all in positions of authority, in the Executive, Legislative and Judicial branches, as public servants, to make a difference in the lives of our people.

President George W. Bush said, "Use power to help people... for we are given power... not to advance our own purposes, not to make a great show in the world, nor a name. There is but one just use of power... it is to serve our people."

After 30 years of self-governance, the state of our island today is very evident. There is still so much to be done... but you cannot deny that things are getting better. There is optimism... confidence... and prosperity... in our island again.

But we must continue our work to ensure the needs of all our people are met. We all want it done immediately... but the work required of us cannot be done in a day... but over time... not through an event... but through a process...and it cannot be done alone. We must all unite and work together in order to succeed.

Progress is already taking place... just look how far we've come....

My dear people of Guam, I am here to report that... Hope has been restored! A decade... of recession... is finally over!

Guam's economy has stabilized... and is expanding for the first time in 10 years! In just the last two years, nearly 1,400 jobs were created in our community... unemployment has dropped by more than a third from

STATE OF THE ISLAND ADDRESS

when we first took office. Our Gross Island Product in 2004 was 20 percent higher than in 2003, at more than \$3.1 billion!

For the first time in our history, economic indicators show simultaneous growth in our island's two main industries – tourism and the military. We are on the verge of record-breaking visitor arrivals... and unprecedented military spending.

We continue to forge stronger ties with the military... embarking on the largest expansion we have seen in decades... Some \$2.5 billion in military construction projects and infrastructure improvements at Naval Station and Andersen Air Force Base are planned for Guam in the next five years.

Real estate transactions are up by 68 percent from a year ago... and total sales nearly doubled from 2002. Development is on the rise... as our people are once again able to buy homes or invest in other properties... And our island continues to prepare for the increase in military personnel and their families.

More than 15 million dollars in **new** housing loans were approved in 2004, and we are working with the Retirement Fund to bring 100 million dollars in investments **back** to Guam... providing even **greater** opportunities for families to build new, affordable homes.

This time last year, new construction permits were at \$6 million per month... by December, that figure doubled to \$12 million for 2005, we anticipate a record increase of nearly 400 percent to 21 million dollars a month.

In 2004 our island welcomed more than 1.1 million visitors to our shores, nearly 30% more than the previous year, equating to more jobs, increased business activity, and more money in the pocketbooks of our people. And this year we expect 1.3 million tourists... the most visitors our island has welcomed in a single year.

Investor and consumer confidence have returned and are getting stronger as our economy grows. We continue to foster new industries including transshipment, film, higher education, regional healthcare, telecommunications, arbitration, financial services and more!

Just last month, I met with executives from more than 60 large corporations from the Philippines interested in our island's economic potential, and in a few months, I will be heading a delegation to Taipei city to further promote our island. All of these investors understand very well the value and security of America in Asia – Guam U.S.A.

Our construction industry is in the midst of even greater growth. Retailers are expanding and renovating. DFS announced its largest capital upgrade in the world this year, a \$30 million renovation to its Tumon Galleria. Louis Vuitton will soon unveil its flagship store at the Tumon Sands Plaza. The Agana Shopping Center re-opened its doors with a brand-new look, new stores and restaurants, helping breathe life back into our capitol city.

Major road construction projects, including Phase II of the Tumon Redevelopment and North Marine Drive are complete. Our airport's runway expansion and other capital improvement projects are infusing more than \$102 million into our economy, opening up opportunities for more airlines to come into our island.

After two years, we have made great strides in restoring government efficiency and accountability to better serve the people of Guam:

- We've restored increments our hard-working GovGuam employees to help them provide for their families.
- We've restored supplemental annuities for our retirees to make life a little easier on them.
- We've nearly doubled our fleet of school busses so our kids can get to school on time.
- We've more than tripled the amount of ambulances, from six to 20 to ensure our emergency responders can get to you when you need them most.

STATE OF THE ISLAND ADDRESS

- We've added 22 new police cars to help keep your street safe.
- Our village streetlights are coming back on again making our neighborhoods safer.
- And we've returned more than 180 pieces of property to original landowners affecting more than 6,000 families, people who finally received justice after decades, giving them the land they need to live on and putting that land to productive use for our economy.

We've held this government accountable for every dime it spends! From the new financial management system at DOA to the EBT cards for food stamps! We are cutting costs and finding innovative ways to eliminate unnecessary or excessive spending. We've reduced the cost of this government by \$100 million.

Privatization, outsourcing, and reorganization, concepts feared by politicians of the past, are embraced and put into practice by your Administration, so that we can deliver better service to each and every member of our community.

We have outsourced security, highway maintenance, cafeterias, information technology and abandoned vehicle disposal to private entities that can do the work better, faster and at a lower cost to taxpayers.

The last publicly-owned telephone company in the nation has finally been sold!

Under the new GTA, we will be getting the same services our friends and families in the states enjoy, bringing world-wide cellular service, wireless technology and 100 channels of digital TV, just to name a few.

For the first time in nearly a decade, our government is acknowledging its debts and paying them down. We made it our priority to pay more than \$143 million in tax refunds. We've collected more than \$66 million in delinquent taxes, restoring fairness and equality to the way government treats all our people.

But there's still much more to be done. We're not out of the woods yet. We have come a long way to stabilize the cost of this government, and enhance services to you, the people. But we still face serious financial challenges that this government does not have the means to pay: remaining unpaid tax refunds, Earned Income Tax Credits, the Retirement Fund's unfunded liability. Our hospital needs an additional \$11 million each year just to keep its doors open and MIP remains severely under-funded.

Everyday we will continue our work to address government debt, actual and anticipated revenue collections and expenditures. We will continue to assess Guam's capital needs to ensure that the funding is available to meet our growing infrastructure requirements. However, it is time that we take a realistic look at fiscal policy that has evolved over the years and needs to be reviewed and updated.

Throughout our island, we are also seeing a renewed sense of stewardship, people stepping forward to claim ownership of their community. When the beauty of our island was neglected, our people came out to restore the pride in our home with the Na La' Bonita Guam and the coastal clean-up programs. I am proud of the work you've done!

To Guam's corporate citizens and the countless individuals in our community who worked with the First Lady to make Project ABC such a success and for bringing our bookmobile back into our villages – thank you!

Our island's tourism partners, who have time and again, shown their commitment to the community! You continue to support our firefighters and police officers as they work to keep our island safe, Un dung'kulu na si Yu'us ma'ase.

Courage, determination, and an unyielding desire to make things right, this is the spirit of our people. People like Roland Taimanglo, who fought the government of Guam against what seemed like insurmountable odds... to provide greater accessibility for our physically challenged. But he persevered. Fighting for seven years, until he finally achieved his purpose. Last year, this Administration worked with

STATE OF THE ISLAND ADDRESS

Mr. Taimanglo on a plan to ensure all our public facilities, including sidewalks, meet A.D.A. requirements – Thank you, Roland Taimanglo!

You could see our people's unyielding determination in the actions of retired U.S. Marine Corps Sergeant John Gerber, who, walked the length of this island to bring awareness to his cause, and today, Marine Corps Drive truly honors those fallen Marines who played so pivotal a role in liberating our island. Sgt. John Gerber, we salute you!

Through these men and countless others in our community, we see the character of our people, the very same character that has always carried our people from adversity to opportunity!

As we embark on this new year with hope and anticipation, I am encouraged by this Legislature's commitment to "Work together." This is not a new call for cooperation, but a sobering reminder that we are all responsible to work collectively toward the greater interest of all our people.

I look forward to doing the work of our people with leaders that share our vision of a government that is more responsive, one that runs on a budget based on realistic revenues and a realistic spending plan that fairly and equitably meets the needs of all critical services: healthcare, public safety and education.

While we may not always agree on the best solution, we must never compromise our responsibility to the people of Guam. We must never compromise our guiding principles, because we were not elected to make the popular decisions or the politically correct ones, but the right decisions!

I know that cooperation is achievable, it happens everyday in this government.

It's happening right now! When our schools were neglected, our community responded, businesses, government employees and individual citizens came together and answered the call with the Adopt-a-School program. Cleaning up the schools to ensure that they were ready for our children on their first day of school.

More than \$2 million worth of textbooks were ordered and in the classrooms on time.... for the new school year – something that hasn't happened for nearly a decade. Thank you D.O.E.

But our children need more. That is why we have teamed up with DOE to create the Commission on Teaching Excellence, and for the first time ever, education reform is being driven by parents, teachers and principals – the people who know best what needs to be done to teach our children better.

This is the start of something really special. We are changing the public education system from the inside – out, it's a transformation from the classrooms outward until the entire system is built around the needs of Guam's students.

The challenges in education are not unique to Guam, they are nation-wide. This week, our Administration and education officials will meet with other governors and education leaders from across America to address education issues that affect us all.

We've taken it a step further... we're building new schools!

Earlier last month, we partnered with a private company that will build the new schools and maintain them so that DOE can focus on the business of teaching our kids. We are now working with the AG's Office, the elected school board and the Legislature to finalize the lease.

Through this same concept, we can build a new Public Safety Headquarters, with a modern forensics lab. We are also putting more police officers into our neighborhoods to make our people feel safe again.

Cooperation is necessary as we move forward with plans to build a new, state-of-the-art Regional Medical Center for our island. We recognize that building a new hospital won't solve all our problems, but it is a step toward providing the quality of healthcare our residents need and can believe in right here at home.

STATE OF THE ISLAND ADDRESS

We have already made great strides to improve services at our hospital, cutting the shortage of registered nurses by half... in just two years. We continue to work with the University of Guam, the Guam Community College and the Guam Memorial Hospital, who are training students to become licensed practical nurses to help ease the shortage with locally trained and hired nurses. Last year, we hired an OB/GYN to work exclusively at the hospital, but it is only a start. This year, we will hire hospital-based physicians for surgery, pediatrics and adult medicine.

When we came into office, we provided \$1.5 million in funding to the hospital, in addition to their budgeted amount. That was not enough! Last fiscal year, we gave \$5.1 million to GMH for medicine and supplies. That was still not enough! In the first four months of this fiscal year, I dedicated \$2.2 million in compact impact funds. That will not be enough!

We must identify a consistent source of funding for our hospital, that is why I have called for a roundtable discussion with the Legislature, hospital administration, doctors and other medical professionals to discuss not only the problems we all know about but the solutions our people need. We've all taken an oath to care for our people. It's time to put our differences aside, roll up our sleeves and get the job done.

We have seen cooperation between agencies and the private sector, creating career opportunities and better jobs for our people. Today, AHRD is working with GPA to train and certify its employees through apprenticeship programs.

Just last month, GEDCA re-established its micro-loan program to support our island's local entrepreneurs and small businesses. In March, we will be bringing together local businesses and active investors in an economic development conference to strengthen the viability of our island. Our goal is to create an investment friendly environment that minimizes government bureaucracy and maximizes support of private sector growth.

Over the past nine months, we have worked closely with all nineteen mayors to identify the village roads in need of repair. We will now work with this Legislature to reprogram \$22 million in unexpended highway bond money to fix roads that have been neglected for many years.

Our efforts at cooperation have not stopped at the local level, we continue to work closely with the Department of Interior to heighten awareness and renew interests from U.S. and foreign investors into our island.

We have worked closely with Congresswoman Madeline Bordallo and the Guam Chamber of Commerce to get the message out in Washington D.C. that Guam is ready for more military presence. And the message has been heard. Our close relationship with the Bush-Cheney Administration and the Republican Majority in Congress will reap benefits for all our people.

Today, we join forces with our military partners to draft a comprehensive master plan to improve Guam's infrastructure capacity, supporting the needs of both our nation and our island. Together, the Navy, Air Force and GovGuam are coordinating efforts as we plan capital improvements to our island and seek additional federal funding to do so.

The most critical quality of life issue our island faces today and for years to come is water. Let me share with you the magnitude of the situation we face, the reality is we have system that is almost 60 years old and today, Guam Waterworks must borrow \$200 million just to meet federal EPA requirements. But to get the system to where it needs to be will take additional \$400-600 million. We will never relinquish our rights over water but we must restore its delivery to our people. Today, I am calling for the privatization of the Guam Waterworks Authority, in part, or full.

In order to succeed, we must be unified in our goal to provide every house on this island with clean and reliable water. And I urge the Legislature and the CCU to stand with me.

STATE OF THE ISLAND ADDRESS

As leaders, there is one thing that we cannot delegate and that is responsibility! Responsibility is our duty to make and keep commitments to resolve the problems of today for the generation of that follow.

Our progress can be measured by the importance we place on that next generation... the example we set for our children, but more importantly the value we place in our children because our success today is no good if our children are not equipped for tomorrow.

It is our obligation to raise a generation of children that carry on what our grandparents valued, but that can only happen if we also uphold those same values. Not just with our words but in our actions, not just as leaders but as parents, not just as government but as a community, not just in our agencies and schools... but in our homes.

Let us, today, commit to be good to one another to treat each other with respect and dignity. Let's show our children that there is real value in respecting each other.

Guam is truly blessed – a special place because of its people, people who have always took pride in being part of a community – people who have always valued family, friends and neighbors. As we continue to plant the seeds of prosperity, we must also endure the seasons of preparation.

Let us renew our passion to serve. Together, let us find a way to realize the goal and enable all to succeed. By together, I mean all of us: local and federal government, the military, the private sector, the community.

We can achieve so much in our generation. We must navigate our course to fulfill our call, our destiny.

As we look to the future... united in our commitment to fight the good fight, finish the race and keep our faith... let us finish strong!

This is my prayer for the people of Guam...

Father, unite our hearts that through love we might serve one another. That you may continue to rain down your prosperity and kindness upon our island...

This is our time... our call to action, but more importantly our duty to our community, our children, and our island. Si Yu'us Ma'ase, thank you, may God continue to bless you – may you go in peace.

STATE OF THE ISLAND – SUPPLEMENTAL REPORT

GOVERNOR FELIX P. CAMACHO

EDUCATION

Department of Education

- The School Recovery Task Force ensured that our children were in the classrooms learning, on time. The Task Force started work on July 19 and identified 3,380 projects to open the schools. When the schools opened less than a month later, 74 percent of the projects were complete, enough for the schools to be ready for their students. The Task Force pulled from employees at the Department of Public Works, Department of Parks and Recreation, Guam Housing Corporation, Guam International Airport Authority and Guam Telephone Authority, saving DOE more than \$218,000 in manpower costs.
- The Task Force was able to contract major repairs in the schools, including the Simon Sanchez High School roof, the B.P. Carbullido Water Storage Tank, Luis P. Untalan Middle School sewer connection and Southern High classroom air-conditioning. The Task Force also used emergency procurement to install portable toilets and water storage tanks at six elementary schools, two middle schools and Southern High to eliminate the need to close schools due to water shortages. The Task Force also gave DOE its recommendations to improve school maintenance and policies and procedures for responding to Public Health and fire inspection reports.
- At beginning of school year 04-05, DOE outsourced 10 school food service operations. DOE anticipates an annual savings of \$1,603,325 as a result.
- Playground equipment was provided to two public elementary schools as a result of a Community Facilities Grant award from USDA Rural Development and matching funds from IT&E Overseas Inc. and DFS Guam via the First Lady's Hope Foundation. DOE has received an additional grant award from USDA Rural Development for playground equipment for five other schools. Matching funds are being coordinated with the First Lady's Hope Foundation with the Laguna Association of Guam. Total cost for the playground equipment inclusive of matching funds is \$109,400.
- DOE has continued to implement programs funded under the No Child Left Behind Act, Public Law No. 107-110. The program is designed to increase student academic achievement and improve the quality of education for all students.
- Resolution to DOE's High-Risk Grantee status: DOE continues to make progress as it works to address its challenges and meets the special conditions set forth by U.S. DOE. As a result of DOE instituting corrective actions to address the findings related to fiscal accountability of federal funds, U.S. DOE informed the Governor on Sept. 30, 2004 that the 50% draw down limitation was lifted.
- To increase student participation in the school breakfast and lunch program, DOE has developed the School Meal Initiative program. The program focuses on healthy food choices and nutritional education for public school children.
- DOE has expanded the USDA Emergency Food Assistance Program to include the island's homeless via the Guam Homeless Coalition. Island residents who are homeless will be provided free food commodities under this program via the Coalition.
- The Office of the Governor, the Guam Police Department and Guam Fire Department have joined DOE to develop a district-wide Safe Schools Action Plan to address school crime and violence. The objective is to develop and maintain safe schools. In addition a Safe Schools Advisory Council was established.

University of Guam

- Opened the University of Guam Cancer Research Center, a \$3.6M planning grant in partnership with the Cancer Research Center Hawaii funded by the National Institutes of Health. This grant funds research into cancer incidence within minority populations and encourages Pacific Islanders to pursue careers in cancer research. Three UOG graduate students received scholarships to fund their master's degrees and pursue cancer research while working with mentor professors.
- Began site work construction on the Jesus S. and Eugenia A. Leon Guerrero School of Business and Public Administration Building, a \$13.5 million project funded through a USDA loan. The new facility will support business education, small business development and economic development for Guam and the region.
- Most recent audit shows the University generated \$33 million from its own operations. Revenues from auxiliary funds, tuition, and grant sources comprised 53% of total operating revenues. For every dollar invested in the institution, the University generates an additional \$1.20. Net assets increased by \$2.5 million.
- 394 individuals graduated with bachelor's and master's degrees in Academic Year 2003-2004 increasing UOG alumni to 10,000+. Increase in new students for the second consecutive year.
- The University remains affordable and competitive with students paying 45% less than those attending U.S. public universities.
- University Nursing graduates received 100% first-time pass rate on the nursing licensing examination underscoring the academic quality of the Bachelor's of Nursing Program at UOG and ensuring qualified graduates provide our families with superior care. The national benchmark is 75%.
- UOG became a Truman Honor Institution in 2004 joining an elite group of 50 universities that have received this designation. The University has produced four Truman scholars in the last five years.

New Grants

- \$240,000 for the Nursing program through the Omnibus federal spending bill.
- The University will share in \$500,000 of federal spending to support teaching, research, student scholarships, and classroom equipment.
- A four-year, \$800,000 grant to fund a Master's program in Speech and Language Pathology in partnership with UOG CEDDERS and San Jose State University. Scholarships are available and the program begins in 2005. Graduates will fill critical vacancies within the Department of Education and other service areas.
- \$100,000 proposal to initiate a Sea Grant Program at the University of Guam. The mission of the University of Guam Sea Grant Program is to optimize the sustainable use of the ocean's resources, to protect the delicate ecosystems that exist and to prevent any hazards and degradation of the natural resources through research, education, and advisory support; to increase our understanding of the balance of sustainability and protection of the environment that exist within the Western Pacific region.
- The University of Guam's Biology Lab will have 25 microscopy workstations in Spring 2005 thanks to a \$298,000 three-year grant from the federal Dept. of Education's Minority Science and Engineering Improvement Program (MSEIP). Each workstation will be equipped with a compound microscope and a lower-power stereomicroscope (dissection microscope), and have Internet access from a computer between adjacent workstations.

Renewed and Continued Grants

- \$10.6 million for the University of Guam and the University of California, San Diego Consortium five-year grant to study age-related neurodegenerative diseases in Micronesia.
- Upward Bound received \$323,118 in funding for FY 2004, bringing the five-year grant total to more than \$1.8 million dollars.
- \$1.5 million five-year federal grant for the University's GEAR UP program, which encourages students to stay in school and pursue post-secondary education.
- \$1.5 million Guam Dual Certification in ESL Project, funded by Title III English Language Acquisition: National Professional Development Program, for approximately \$300,000 each year for five years, netting about \$1.5M towards professional development for Guam teachers and school aides.

Guam Community College

- **Prometric Testing Site:** Prometric is a computer based testing and assessment service that allows individuals from academic, professional, government, corporate and information technology to take international certification exams anywhere in the world. Being a Prometric Testing Site, GCC becomes an important player for Guam's workforce to achieve internationally recognized certification for Cisco System and Microsoft products and services along with other important technical advancement certifications.
- **Culinary Arts Program:** In spring 2004, GCC started its 1st cycle of students in the newly configured curriculum of the Associate of Arts program in Culinary Arts. The program is operated as an academy in which all participating students attend classes in a cyclical manner for two years. At the of the program's second year, these students earn not only their degree but also placement in some of the finest restaurant kitchens on island. Students on Guam had to go off island to obtain an Associate of Arts Degree in Culinary Arts. Today, our students now have a choice to either stay on Guam or go off-island to gain the knowledge, training and skills to be a Comis-Chef, Demi-Chef, Chef de Parti, Sous Chef, Executive Sous Chef and eventually an Executive Chef.
- **Liberal Arts Program:** Allowing students to obtain a Liberal Arts Degree, in spring 2004, GCC added this program to its academic programs. The Associate of Arts Degree is designed to provide our students with a stronger general academic foundation to meet a growing workforce demand for generally prepared employees, and to provide a pathway to a four-year college for students who require an alternative entry point.
- **Capital Improvement Projects:** In FY2004, the College engaged in capital improvement projects totaling over \$3 million. Some of these projects include the Multi-purpose Building, the Technology Center, remodeling of the Student Hub, Energy Efficient Rooms for Building A, B, C and D, Replacement of Temporary Buildings, Renovating Building 600, Upgrading Outside Lighting System and Campus Signage.
- **Financial Status:** GCC is one of the only Government of Guam agencies qualified as "low risk" by Deloitte & Touche and accepted by Guam's Public Auditor as defined by OMB Circular A-133. The College will continue to ensure that its financial accountability meets the standards reviewed and accepted by the Public Auditor.
- The completion of the Multi-purpose Building and the Technology Center will bring new opportunities to GCC's academic and professional offerings for Guam and the other islands of Micronesia. State-of-the-art equipment that will be housed in each of these new facilities
- GCC will complete an extensive master plan, including the Facilities Master Plan will include Capital Improvement Projects to enhance as well as advance GCC's mission as a leader of Guam's workforce development. This master plan will also include the development of the 314-acre property we have in Pagat, Mangilao.

Guam Public Library System

- GPLS applied for and was awarded a grant from the USDA for books and materials for its youth literacy programs.
- **Bookmobile:** Through public-private partnership, the repair of the Bookmobile was sponsored by Matson. South Pacific Petroleum (76/Circle K) agreed to sponsor fuel for the vehicle. The Bookmobile reentered service to the community on October 11, 2004. The Bookmobile Foundation (founded by the First Lady of Guam, Matson and South Pacific Petroleum) was created to raise funds for the operational expenses of the Bookmobile.
- **Summer Reading Program:** This annual eight-week long program consists of various activities that encourage reading during the summer.
- **Saturday Story Hour:** Hundreds of the island's pre-school and elementary age children participated in this two-hour program consisting of storytelling and craft projects that encourage reading at an early age and develops listening and reading skills and encourages motor development.
- **Information Highway for the Elderly:** A series of computer and Internet training sessions for the island's elderly were held from February through June.

Guam Educational Telecommunications Corporation (KGTF)

- Awarded a new \$500,000 grant from the Corporation for Public Broadcasting to digitize the station with a tower upgrade and purchase of new digital antenna. Grant will enable KGTF to be the first television station on Guam to go completely digital by 2nd quarter 2005.
- Upgraded production department with the purchase of the latest digital editing equipment complete with training to certify KGTF's entire production staff.
- KGTF aired live the complete production of Guam's 60th Liberation Day Parade commemorating the island's 60th anniversary of Liberation.

Guam Police Department

- Promoted GPD officers for the first time in seven years, providing steady leadership throughout the department so that the police force can serve the community more efficiently, and making room for new recruits.
- Fostering of the Governor's policy of transparency in government by enhancing the public/private relationships between the Guam Police Department and private businesses. This was a direct catalyst to the renovation of Building 231 in Tiyan, which houses the Records and Identification section, the renovation of Building 235 in Tiyan, which will house the new Evidential Control section, the completion of construction and grand opening of the new Tumon/Tamuning Precinct, as well as numerous other improvements
- The confidence that is placed in a Police Department by the general public is of paramount importance in relation to the level of self policing that is desired of the community. Some of the improvements that have been made throughout the Department in the past year, which have directly enhanced the people's confidence are as follows:
 - Public accessibility to the Chief, and transparency in most operations within the Guam Police Department.
 - The establishment of Cop Talk, a weekly call-in show on a local radio station, which receives calls from the general public on all topics, including those that are Police related.
 - The procurement of new Police Vehicles and Motorcycles that allows for better saturation and Police presence on the roadways and villages.
 - The heightening of morale, by promoting and hiring of personnel, as well as the improvement of facilities, equipment, and quality of life in the workplace.

Guam Fire Department

- Recruitment of eleven (11) Emergency Medical Dispatcher for the E911/Communications Bureau
- Emergency Medical Technician recertification for all firefighters
- Relocation of GFD Headquarters
- Procurement of three (3) fire trucks and eight (8) ambulances utilizing 1.75 million dollars of compact impact funds. This is the first procurement of fire trucks for the last twelve (12) years.
- Twenty-seven fire recruits will graduate in May, bringing total force of medics, emergency response personnel and firefighters to 304.
- Consolidation of the Fire Suppression Bureau and the Emergency Medical Services Bureau to maximize personnel resources due to extreme shortages of manpower.
- Reduction in working hours and paid hours for all firefighters resulting in the savings of over \$400,000 per year. The savings realized reduced the funding shortage of GFD for Fiscal Year 2003 from \$1.3 million dollars to \$900,000.00.
- Updating/revamping of GFD's antiquated Rules & Regulations and Standard Operating Procedures
- Approval of over \$1 million dollars worth of project worksheets by FEMA for Typhoon Pongsana damages
- The completion of Inarajan Fire Station and the arrival of a new fire truck for this particular fire substation
- The reviving of GFD's Home Safety Inspection Program. This particular program was introduced since the existence of the Fire Division but were ceased in 2001. The program calls for GFD to provide courtesy Home Safety Inspections to the citizens of our island. Upon approval/request of the homeowner, GFD conducts the inspections and identifies fire hazards.
- GFD launched its first ever Community Training Program. This program involves the training of citizens in the villages in CPR and Basic First Aid. Prior to this program being implemented, training was only made available to businesses, private organizations and government agencies. Villages involved in the training to date includes, Inarajan, Merizo, Umatac, Talofofo and Agat.

Office of Homeland Security/Office of Civil Defense

- Merger of the Recovery and Mitigation Offices with Civil Defense, bringing all the components of emergency management (Preparation, Response, Recovery, and Mitigation) under one roof.
- The establishment of the Community Emergency Response Team (CERT) Program on Guam. In 2004, over 250 individuals in the community were trained in CERT, surpassing the mandated numbers provided by DHS. Guam has more community members per capita trained in CERT than any other jurisdiction in the nation.
- Pursued and worked with FEMA on waiving the insurance requirement for Typhoon Chata'an and Super Typhoon Pongsona projects estimated below \$53,000. The non-requirement for insurance for these projects amounted to the release of over \$3,000,000 of FEMA funding for much needed typhoon repair and equipment replacement.
- Successfully negotiated with FEMA on the closeout of the Typhoon Paka bus shelter project and reducing the project de-obligation from \$1,200,000 to \$400,000.
- Coordinated the settlement of the Guam Power Authority's appeal to FEMA for recovery costs from Typhoon Paka in the amount of \$9,000,000.
- Secured \$34,000,000 from FEMA for Hazard Mitigation Projects that include:
 - Underground placement of power lines from Dededo power plant to Guam Memorial Hospital.
 - Address storm flooding problems in villages.
 - Installation of typhoon shutters at Mayors' offices and various community centers.
 - Hardening of radio repeater and transmission sites.
- The establishment of the SARS Response Plan. Chaired a coordination and focus group with various agencies, the Guam Hotel and Restaurant Association, and the Center for Disease Control to develop and exercise a plan to deal with a suspected or confirmed case of SARS on Guam.
- Created and coordinated the Adopt-a-School Program to foster relationships between the Department of Education schools and government of Guam agencies, civic organizations, and local businesses. The program has assisted the Department of Education in the cleaning and maintenance of the schools in preparation for and throughout the school year.
- Coordinated and conducted various natural and man-made disaster drills within and between agencies to develop or enhance each agency's efforts to prevent, respond, or recover from a catastrophic event.
- Assisted agencies in the development of emergency response and continuity of operations plans. These plans will provide agencies the guidance to effectively respond to an emergency directly affecting their organization and provide a contingency should there be a need to operate out of an alternate location.
- Created the Unified Bomb Incident Response Plan that defines the roles and responsibilities of agencies in responding to a bomb threat, bomb scare, or actual bombing incident.
- Established the Homeland Security Strategy Focus group comprised of representatives from agencies with response or critical operations responsibilities. This group assists in identifying agency planning, training, equipment, and exercise needs for preparing, preventing, responding to, and recovering from a natural or man-made disaster.
- Coordinated and provided 62 sessions in various weapons of mass destruction courses to 5,227 Government of Guam, private sector, and military personnel. This robust and aggressive training effort has been recognized by the Department of Homeland Security's Office of Domestic Preparedness and is encouraged as a model for other jurisdictions.
- Conducted a full-scale terrorist chemical attack that tested our current capability to respond to such an incident. The exercise was a multi-agency between local and federal entities and involved over 500 participants, evaluators, and controllers.

Department of Corrections

- Reduced recidivism of inmates from 50 percent down to 26 percent with focus on rehabilitation. Graduated 257 inmates from treatment and rehabilitation programs and 38 from substance abuse program.
- Reduced institutional violations by 14 percent through rehabilitative programs and enhanced security measures.
- DOJ resolution: 95% of DOJ issues have been resolved, including a \$300,000 Department of Interior grant to resolve the fire sprinkler system.
- Outsourced several systems: generators (savings of about \$30,000); Galley Food Operations (savings of about \$2.5 million); and Inmate Phone System (about \$10,000 in annual revenue projected). In addition, continued outsourcing of medical, dental and psychological services have an annual cost savings of about \$8.5 million.
- DOC Community Service inmates and parolees saved the community an estimate \$2.2 million by performing community service in roadways, government offices, schools, parks and cooperative agreements with private entities.
- Facility renovated and repaired through private, military and federal donations. Refurbished entire existing facility in painting, electronic, electrical and construction repair, government more than \$300,000.
- Approximately \$4,000 worth of donations funded repairs to existing surveillance cameras, at no cost to government.
- Established Special Operations Response Unit that provides emergency operations for potential escapes, riots and other inmate incidences.
- Refurbished former housing unit using federal funding and inmate labor for a temporary Residential Substance Abuse Treatment building.
- Constructed an employee gym from donations and salvaged material, saving about \$75,000 in labor and construction costs.
- Began monthly Leadership Development Program where established leaders from within the community provide leadership principles and experiences to model.
- Re-established Freedom Bound Choir that participates with religious organizations throughout the island to further perpetuate Restorative Justice Principles and community re-integration.
- Worked with Department of Agriculture to establish an Organic Farm, where inmates are taught agricultural principles and techniques in farming.
- For the first time, DOC established treatment programs for inmates in the maximum and administrative segregation units.

Customs and Quarantine Agency

- Generated a surplus of \$3.93 million in revenue and grants.
- Consolidated services by merging all Plant, Protection and Quarantine Inspectors into the agency, resulting in projected lower costs to the public.
- Expanded law enforcement services, through grants from the National Oceanographic and Atmospheric Administration (NOAA). Also secured grants from U.S. Department of Agriculture and the Edward G. Burn Memorial Grant.
- Working to privatize and outsource legal services, accounting and bookkeeping services, evidence disposal and incineration services, fuel services, solid waste services and maintenance services for vehicles, firearms, communications, computers, etc.
- Hiring an additional 10 Customs Officer Cadets.

Guam National Guard

- Significantly contributed to economic welfare of island with over \$31.9 million in salaries and benefits to its Soldiers and Airmen, construction projects, and contracts to local vendors.
- Guam National Guard support to law enforcement agencies resulted in seizure of \$1.85 million in drugs.
- Deployed military intelligence detachment and transportation squad to Iraq; deployed infantry to Horn of Africa; deployed Air National Guard Civil Engineer Squadron to Korea.
- Established Weapons of Mass Destruction team, authorized by Congress, consisting of 22 full-time Army and Air National Guard members. Approximately \$4 million to be appropriated to field this team.

Department of Youth Affairs

- Provided counseling services to 547 clients who were admitted to the care and custody of the department.
- Aftercare Program, a six to twelve month intensive monitoring program, has handled an average caseload of 95 clients per month. The success of this year's program shows less than 5% of juvenile offenders released from the youth correctional facilities have returned while under the Aftercare Program.
- Successfully implemented a School Shadowing Program to track released clients in all high schools.
- Relocated southern resource center from Talofoto to the village of Agat, due to higher client population from Agat.
- SCORE Program: presentations were conducted at the various schools, reaching approximately 1,400 students. Provides awareness on the realities of living in a correctional institution, the Family Court and juvenile laws and consequences.
- Summer Youth Employment and Training Program: Collaborated with AHRD to give nearly 600 students from all over the island experience and knowledge in the workforce in the three-week program.
- Plans to expand services by building a new school and renovating the GPD and Fire station in Dededo to centralize the northern resource center.

Guam Memorial Hospital Authority

- **Governor's Healthcare Summit:** Brought together key health care stakeholders and identified critical needs for GMHA; additional capacity to meet the needs of Guam's current and future population, the need for on-going subsidies, the need for expanded services to counteract the off-island drain of healthcare dollars and patients, and the need for innovative approaches to health care organization, delivery, and financing .
- Clinical staff shortages addressed by assisting new RN graduates review for the difficult NCLEX class, and development of an LPN training program in conjunction with UOG and GCC.
- Hired 1 OB/GYN Hospitalist, surgical and adult medicine Hospitalist to be in place March – April. Private sector doctors burdened by high levels of uncompensated care, as is GMHA. A Hospitalist focuses entirely on inpatients. Model now in use by many other facilities, and PacifiCare.. Benefits to GMHA and patients include improved outcomes, shorter length of stay, lower costs. Current OB Hospitalist is attending 40% of all births at GMHA.
- Medical Staff Recruitment of: 2 anesthesiologists, 1 Certified Registered Nurse Anesthesiologist, 1 infection control nurse, 3 medical interns, 1 OB Hospitalist, 1 General Surgeon Hospitalist
- GMHA has reduced its days revenue in accounts receivable for commercial payers to Mainland Standards; less than 60 days.
- GMHA has posted a positive operating margin for the past 6 months. A positive operating margin is a benchmark for future debt financing.
- GMHA has added key staff essential for the ongoing improvement of care; a revitalized infection control program headed by a registered nurse, a revitalized quality improvement and performance improvement program.
- GMHA has outsourced or privatized its Housekeeping and Security services, resulting in improved cleanliness, infection control and patient security.
- The hospital has also outsourced its ground keeping efforts resulting in fewer staff and lower exterior maintenance costs.

Department of Public Health and Social Services

- Implementation of the Electronic Benefits Transfer Program which essentially replaced the paper food coupons issued to eligible participants in the Food Nutrition Program with the Guam Quest Card which allows clients to purchase food by swiping a card much like a credit/debit card. Also, clients can access their Cash benefits through the same card. Guam was able to beat California in rolling out its EBT program.
- Implementation of the MIP Reform Law which requires MIP clients to receive their primary medical care through the Community Health Centers located in Dededo and Inarajan. The impact is that approximately 9,000 individuals are eligible for MIP. These individuals are being seen at the two centers, relieving the challenges posed by private practitioners refusing to accept them because of the government's inability to reimburse them in a timely manner.
- Awarded several grants from GHURA for the renovation and/or construction of the following Senior Citizen Centers: Sinajana, Merizo and Santa Rita.

Department of Mental Health and Substance Abuse

- Awarded federal grant of nearly \$1 million to develop state-wide strategic plan for the prevention of substance abuse, subsequently leading to another grant in the amount of \$5 million for a five-year period to implement a comprehensive plan. The effort will be community-wide, including government agencies, community leaders and non-profit organizations.
- **I Famagu'on-ta:** Along with key stakeholders and families under a \$9 million grant, developing the infrastructure to provide services for children with serious emotional problems and who are having extreme difficulty concentrating during school.
- Opened a center named Rays of Hope, providing therapeutic day treatment, respite care and intensive home-based services.
- Opening a Therapeutic Group Home.
- Executive Order to ensure that every effort is made to provide resources necessary to ensure that the disabled community is fully integrated into the community rather than being institutionalized.

Department of Integrated Services for Individuals with Disabilities

- DISID and DVR are working to get the Division of Vocational Rehabilitation off the High Risk determination that the Division has been on since 1995. It is doing this by case management enhancements, programmatic corrective actions, accounting reports and reconciliations.
- Progress has been made with the Inadanna Para Tinilaika -- Partners for Change Grant. An advisory committee has been meeting since last year in October, the new process of individualized budgeting that will result in a Pilot Project of consumers actually implementing the individualized budgeting process which is a shift from Agency-Centered Delivery of Service Systems to a Consumer-Centered Delivery of Service Systems. The Advisory Committee of consumers is developing the Individualized Budget Program to finance this shift.

Guam Environmental Protection Agency

- Establishment of the Information Services Branch and 100% federal grant funding to support comprehensive automation and information management and exchange system.
- Guam EPA launched in FY04 a continuing multi-year environmental management information systems readiness initiative covering the next five years under competitive USEPA NEIEN (National Environmental Information Exchange Network) federal grants.
- The Agency steadfastly organized and has dedicated staff tracking and implementing provisions called for by the two complex and challenging federal court orders stemming from USEPA complaints.
- Work on a new sanitary landfill and commensurate regulatory closure of the Ordot dump is substantially on track and schedule.
- The Agency has effectively administered the first year's budget of a newly adopted two year budget cycle that for the first time de-linked from the General Fund, relying instead on consolidated and competitive federal grants (85%) and dedicated local special funds (15%).

ECONOMY AND FINANCE

Federal Funds

- After factoring for one-time infusions of federal funds due to Typhoons Chata'an and Pongsona, the total amount of federal funds Guam received are as follows:
 - FY01 \$155,210,555
 - FY02 \$183,930,714
 - FY03 \$204,180,029
 - FY04 \$211,072,203

Guam Economic Development and Commerce Authority

- Revenue management produced \$270,000 in cost savings, \$500,000 in federal grant from the Administration for Native Americans for a Guam Medical Residency Program, and \$700,000 from the sale of a Dry Dock which generated \$1.4 million in funds used to write off \$400,000 in bad debts, the balance for economic development initiatives and healthcare improvement.
- GEDCA Micro Loan Program launched making \$1 million available for small businesses, designed to provide lending to smaller, start-up companies.
- Facilitated over \$246 million in financing for the Guam Airport Authority and the Guam Power Authority.
- Identified \$21 million in excess Highway Bond funds to be re-programmed for repair and replacement of roads and highways.
- Consummated Tax Credit Programs for the Paseo Stadium and Soccer Stadium projects that will provide \$2.5 million in funds for Paseo Stadium restoration and construction of a new Soccer stadium.
- **Arbitration:** This administration remains focused on capitalizing on progress made during this term. With the passage of the Guam Arbitration and Mediation Law in February 2004, efforts are under way to raise awareness of services Guam can provide in the arbitration and mediation arena, not only internationally but locally. In September 2004, the governor signed an Executive Order incorporating an arbitration clause in all government of Guam contracts.
- **Captive Insurance:** In 2004, the administration undertook efforts to improve Guam's Captive Insurance product with Public Law 27-54. With this law, Guam is able to market effectively to Japanese companies looking for a location for their insurance companies. With monies received from the Department of Interior, GEDCA is developing new marketing strategies not only for Japan but also for other Asian countries capitalizing on our captive insurance program.
- **Other industries:** GEDCA is actively pursuing programs to develop new, quality-job producing industries for our island to diversify our economy. We are pushing forward with the development of the Regional Distribution Center initiative, marketing Guam as a viable option for U.S.-based retailers for consolidation and clearance of cargo from Asia. We are also making great headway in the development of the Regional Back-Office Support Center initiative, marketing Guam as a viable option for U.S. companies with operations in Asia.
- We also have revived marketing of the Guam-based Trust initiative with renewed marketing efforts in targeted Asian countries primarily as a result of growing interest from those areas.
- In March of this year, we will hold the 2005 Guam Economic Development Conference, a mid-term review of economic recover progress since the launch of my Economic Recovery Plan almost two years ago. Both public and private sector representatives will meet to discuss existing and new economic development programs.

Guam Visitors Bureau

Visitor Arrivals

- In 2004, we welcomed 1.15 million visitors to our island, a 32% growth from 2003 and a 10% increase over 2002. The arrival numbers exceeded the Guam Visitors Bureau initial forecasted figure of 970,000.
- Visitor Arrivals Goal in 2005: GVB's visitor target in 2005 is 1.3 million.

Beautification & Maintenance

- GVB partnered with other agencies, notably the Departments of Public Works and Parks & Recreation, to beautify and maintain the island's major public parks and tourism infrastructure in the core tourist economic zones. These included outsourcing of services for:
 - Regular cleaning and maintenance of beaches along Tumon and East Hagåtña Bays.
 - Maintenance and cleaning of the entire landscaped and completed Phases 1 and 2 of the Tumon Area Redevelopment & Beautification Project jointly with DPW.
 - GVB is also one of the key partners in the multi-agency taskforce that spearheads the "Island Pride" campaign to instill environmental awareness and ownership among Guam's youth. With a grant from the Guam Coastal Management Program, GVB is creating a public educational program for visitors and local residents about the Tumon Bay marine preserve.

Cultural Identity

- Exit surveys of GVB's Japanese tourists show that our visitors frequently seek a more enriching cultural experience when on Guam. GVB initiated "Maila ya fan ta Boka" (Come & Let's Eat) cooking competition in March 2004 as the first in a series of activities to kick-start GVB's program to heighten awareness of Chamorro food among visitors.
- This was followed by the development and introduction of a food icon that was distributed to restaurants that serve Chamorro food to indicate the Chamorro dishes in their menus. This activity formed part of the "Summer Cultural Institute" introduced during the 8th Guam Big Summer Festival to foster Guam's cultural identity. GVB launched the "Cultural Institute" as a free program to train hotel personnel in Chamorro dance, songs and arts and crafts demonstrations so that they, in turn, can stage what they learned at their properties to entertain guests.

Sports Tourism

- In January 2004, we welcomed the Yomiuri Giants professional baseball team when they came to Guam for their pre-conditioning training camp. The Giants attracted over 120 media, which created a huge impact for Guam with over \$30 million in media coverage in our largest market, Japan. This is a notable success in accomplishing good PR exposure for tourism and for Guam.
- The GVB Sports Tourism Standing Committee, although only a little over a year old in existence, has reaped other successes since the Giants' visit. We've welcomed in 2004:
 - Professional soccer teams from Japan
 - The Japan National swim team and Japan's National women's synchronized swim team
 - Japan Olympic women's softball team
 - The 8th World Tenpin Bowling Youth Championships (28 countries participated)
 - The East Asian Football Federation Under 14 Youth Tournament (with teams coming from as far as Mongolia)

Marketing Activities

- GVB followed on Governor Felix Camacho's 2003 China visit by participating in the Guangzhou International Travel Fair (GITF) in March 2004 and at the China International Travel Mart (CITM) in Shanghai in late November 2004. The GVB mission met with officials from the U.S. Department of Commerce while in Shanghai. Commerce Deputy Assistant Secretary Douglas Baker chaired a U.S. Travel/Tourism roundtable that was attended by GVB and U.S. travel-related businesses including American Express, Northwest Airlines, Nevada Department of Tourism, JW Marriott Hotels and the Ritz Carlton hotel chain. Baker encouraged GVB to continue its efforts to make its presence known in the China market even though the ADS position is pending.

- GVB also led a sales mission to Busan and Daegu, Korea's second and third largest cities in the south in September 2004, to promote Guam to travel agents in anticipation of the new direct air service by Korean Air. The new service between end December 2004 through mid-February 2005 is expected to add 5,054 seats from the Korean market. At the Busan International Travel Fair in late October, Guam's cultural performers "Hafa Adai Show" won awards for Best Publicity and Best Folklore and Cultural Presentation.
- GVB's presence at the 2004 Japan Association of Travel Agents (JATA)/World Travel Fair annual show was one of the largest in recent years. Guam enticed the rebounding Japan travel market with food and flair by opening a kitchen and having a cultural stage at the Guam pavilion. About 38 GVB industry partners representing 19 tourism-related companies on Guam exhibited within the Guam pavilion. The fair drew 100,000 fairgoers, comprising 36,000 Japanese travel trade professionals and 66,000 consumers. Guam received extensive publicity exposure on a wide range of Japanese media valued at the equivalent of \$2.35 million worth of advertising space.
- GVB also led a friendship mission to Toi Town, Izu City prior to JATA where local government officials of Izu City and its tourist association jointly signed a proclamation to affirm the "Sister Cape Relations" with Guam. Both destinations are linked by their respective "Two Lovers Point" tourist landmarks.
- GVB sent a two-person delegation to represent Guam at the Pacific Asia Travel Association's (PATA) annual travel trade show in Bangkok, Thailand in September 2004. GVB held a media briefing for nearly 100 international and regional travel trade journalists to raise awareness of Guam's and the Micronesia region's offerings for seasoned long-haul travelers looking for new destinations to visit/explore.

Guam International Airport Authority

- In January of 2004, the property appraisal of GIAA's Tiyan property was completed. Tiyan properties were valued at \$53M. This is the first time the property was appraised since the official transfer of title from the US Navy to GIAA in 2000.
- The Airport's Aircraft Rescue and Fire Fighting (ARFF) Unit took delivery of (four) 4 new fire trucks at the end of May 2004. The trucks, valued at \$2.8M were manufactured by Rosenbauer America and built to GIAA and FAA specifications. The trucks were immediately put in service after ARFF and GIAA personnel completed comprehensive training in the operations and maintenance of the vehicles.
- The pilot phase of the Residential Sound Insulation Program was launched in October 2004. This initial phase involves approximately 30 homes that are currently impacted by airport noise measuring over 65 decibels. The Airport successfully obtained the \$2M funding from the FAA to cover the costs of treating homes with sound insulation measures. These enhancements may include new windows, doors and other treatments to decrease noise levels to 45 decibels and below, a level which would allow for normal speech.
- On October 1, 2004, the Airport Authority decreased the costs per enplaned passenger by 12.17% or \$2.03. This was accomplished by decreasing operational costs and increasing revenue streams in its estimated budget for FY2005. These decreased costs are of great benefit to our airline partners by allowing them to decrease the operational costs of doing business on Guam. This move is expected to spur additional or new air service to and from Guam.
- Over 200 airport officials consisting of CEO's, Presidents, Managers and aviation services from airports across the Pacific Region, (including Australia, New Zealand, New Caledonia, Tahiti, China, Taiwan, Singapore, Fiji, Korea, Micronesia and Japan) took part in the 14th Airports Council International conference held May 23 -26, 2004 at the Hyatt. The conference featured prestigious keynote speaker, J. Stapleton Roy, former U.S. ambassador to various posts in Asia and former Asst. Secretary of Intelligence and Research with the State Department. This is the first of many conferences that GIAA plans on hosting on Guam, which would assist in promoting the conference and convention market on Guam while firmly establishing our prominence as the leading airport in this region.
- Massachusetts' based Cape Air began air service partnership with Continental Connection, providing commuter services on July 1, 2004 between Guam and Rota/Saipan.

Grants

- \$7.7M in AIP (Airport Improvement Program) funding from the FAA awarded in May 2004 to construct the Airport Security Perimeter Road.
- \$10.2M in Federal Highway Funding for the extension of Runway 6R from 8,000 ft. to 10,000 ft.
- \$250,000 in FAA funding was awarded to conduct a General Aviation Site Selection.
- \$1.4M in FAA funding was awarded to improve Airport Utility Infrastructure (Water System) Phase III.
- \$100,000 was approved for the acquisition of One (1) Passenger Lift Device
- \$85,000 of Homeland Security funding was made available for the acquisition of a HazMat (Hazardous Material) Decontamination Trailer
- Funding of \$2.5M is anticipated from the US Economic Development Authority to fund the demolition the remaining housing structures in Tiyan. GIAA received verbal advisement that the grant application was approved, subject to the formal application completion and submittal.

Capital Improvement

- GIAA's Airport Police K-9 Unit's Kennel and Training Facility was completed and opened for operations on August 11, 2004.
- The Tiyan Interconnection Water Loop Service which called for the installation of 12-inch water pipes along Route 8 and 16 has been completed and is now in service. This project upgraded the critical distribution of water for the Tiyan and Barrigada areas.
- A Groundbreaking ceremony for the new DHL facility in Tiyan was held on August 18, 2004. The DHL facility is the first new development project embarked on in GIAA Tiyan properties, and will feature loading docks and office space on an initial building footprint of 10,000 sq. feet. Plans are already underway to expand the facility as soon as it completed. The expected completion date is in February 2005.

Community Outreach/Customer Service

- GIAA participated in the Governor's Adopt a School Program, adopting two public elementary schools: JM Guerrero Elementary in Harmon and Harry S. Truman Elementary in Santa Rita. Preparation for school opening required painting, water blasting and general cleaning, which the Airport accomplished in two weekends prior to the first day of school in August 2004.
- GIAA has partnered with the local non-profit organization, Guam Shriners Club to benefit the cause of sending ill children off island for medical care and has supported several fundraising activities for this cause.
- The Ayudanten Puetton Batkon Airen Guahan program began in November 2004. The program, better known as an Ambassador program at other airports assists passengers in various areas of the terminal, with the intention to facilitate passengers through processing points, and to assist in language barriers and provide general information of Guam and the services available at the Airport.

Agency for Human Resource Development

- \$10 Million National Emergency Grant – Super Typhoon Pongsona – A National Emergency Grant (NEG) award of \$10M was received for the temporary employment of more than 1,200 displaced workers, working on the restoration and mitigation of typhoon damages Guam suffered as a result of Super Typhoon Pongsona. The project entailed assigning temporary workers to various government agencies, municipal villages, land jurisdictions, and numerous humanitarian non-profit organizations. The program ended successfully in June 2004. Guam's Pongsona NEG program was acknowledged by the US Department of Labor's Region VI officials as one of the most successful NEG projects administered in the United States.
- Technical Assistance to CNMI. After Super Typhoon Chaba devastated Rota, Tinian and Saipan, AHRD sent its technical assistance staff to help CNMI put together its application for typhoon restoration/mitigation grant - the National Emergency Grant (NEG) from USDOL. With the successful administration of its own NEG project on Guam, the AHRD staff was able to assist CNMI in applying for and implementing the NEG project in the CNMI - with the expeditious approval of an initial \$2 million grant.
- Summer Youth Employment and Training Program – An estimated \$360,000 was allotted to employ over 460 WIA-eligible youth ages 14-21 for 4 weeks to acquire life skills and work experience in the various public and private sector businesses.
- **Incumbent Worker Training Program:** With the implementation of this newly-created program, the Incumbent Worker Training Program provides Guam small business communities access to help train their incumbent workers for upgrade in work skills. This project will increase retention of employees and provide the necessary funding to re-train and to help small business communities to upgrade their services to the community, and the skills of their employees.
- **Workforce Economic and Development Summit:** The Agency hosted and funded a WIA-sponsored Economic Summit in the region. The Summit brought guest speakers from the Mainland to provide lectures and training, and to motivate and encourage our community in Economic Enterprise.
- **Region VI – Pacific WIASRD/Database Reporting Systems Training:** AHRD hosted the first WIASRD Regional training for all the Pacific jurisdictions under Region VI of the USDOL. Provided AHRD's counterpart staff with the Federated States of Micronesia, Commonwealth of the Northern Mariana Islands, Republic of Palau, Republic of the Marshall Islands and American Samoa with the training facilities.
- **Specialized Training Programs:** The Agency continues to increase the partnership with employers for Job Training Programs by 50% in the construction, healthcare and hospitality industries and other related businesses (legal, insurance and banking).
- **Pre-Apprenticeship/Apprenticeship:** Collaboration has been made with the various government agencies -- Guam Power Authority, Guam Water Works, and the Department of Public Works. Private businesses include the Guam Shipyard, Guam Hotel and Restaurant Association, Guam Banking Association and the Guam Contractors Association. This joint partnership with other departments or corporations to establish apprenticeship programs to train our local people is a new mechanism added to the Agency, which has never been explored. Total investment per program is estimated at \$1 million for training and development of the specialized skills in masonry, carpentry, electrician and pipe fitter - to name a few.
- The U.S. Department of Labor approved the Apprenticeship program, which consists of four years of training leading to a certificate as a journeyman. Upon implementation of this program for Guam, based on a ten-year program that would train 200 skilled journeymen, the salaries paid during training and as journeyman would be in excess of \$44.2 million. Based on a 3.0 multiplier the economic benefit to Guam would be in excess of \$132 million. Direct income taxes would be in excess of \$6.6 million and GRT collected would be \$5.3 million. An additional cost avoidance to Guam would be taking two hundred families off welfare at an annual cost of \$43,000 or a total benefit of \$8.6 million.

Port Authority of Guam

- After the record setting year of FY03, the Port was able to maintain the high level of cargo in FY04. The Port handled 2,067,528, compared to the record of 2,164,116 revenue tons set in FY03. The FY04 figure is higher than the year totals from FY99 to FY02.
- Passenger vessels increased, with total passengers increasing from 5,300 to 8,000.
- Despite a increase in revenues, the Port has continued to control its spending. The approved budget for FY04 was \$24.6 million, a reduction from the \$25.7 million expended in FY03. In FY05 the Port is budgeted to spend \$23.6 million. This budget includes provisions for new public laws that require the Port to fund supplemental retirement and other benefits for retirees.
- The Board of Directors has implemented a hiring freeze, and through attrition the Port has downsized by 29 employees over the past fiscal year, and has seen a 72-employee reduction from the 392 employees recorded at the end of FY02.
- The approved budget for Salaries and Benefits for FY05 is \$12,946,306 an almost \$2 million reduction from the \$14,707,552 approved in FY04 and more than \$3.3 million less than FY03.

Port Security

- FY04 presented some new challenges for the Port in the way of the Maritime Transportation Security Act (MTSA) and the International Ship and Port Security (ISPS) implementation in December of 2003. With the help of the US Coast Guard on Guam, the Port Authority was in full compliance of these regulations by the implementation date of July 1.
- In conjunction with this implementation the Port was also the recipient of two grants under the Transportation Security Administration. In round three of the program the Port was awarded \$518,900 for Portable Concrete Barriers, Wharf Surveillance System and Excess Hazmat Container Yard Fencing and Lighting. In September PAG was notified that it was a grant recipient of Round 4 funding for a total of \$280,200 for CCTV surveillance systems, Pre-fabricated portable fencing system, Compact x-ray surveillance system to screen baggage, Walk-through metal detectors and Hand-held detection devices.

Capital Improvements

- The Port was also awarded a \$1.2 million grant in FY03 from the US Economic Development Authority for an architectural and engineering design for a deep-draft pier proposed between Hotel Wharf and Seaplane Ramp. The contract for the design has been awarded and work is proceeding. The current plan calls for the Port to utilize dredged material from the Navy's inner harbor dredging project as fill for the new pier. The Army Corps of Engineers is also working on the Environmental Impact Statement of the project.

Department of Revenue and Taxation

- Over \$63 million collected in taxes since the start of this administration. With aggressive tax collection efforts implemented since the start of this Administration to the end of Fiscal year 2004, DRT was able to collect over \$63 million in taxes. From January 1, 2003 to September 30, 2003, DRT collected \$18,287,502. For FY04 (October 1, 2003 to September 30,2004), DRT collected \$44,988,600. These monies were as a result of aggressive tax collection efforts as promised by the Administration and DRT.
- Increased property tax collections: Prior to this administration, DRT had failed to publish delinquent tax records for several years. During this administration, DRT spent approximately \$72,000 to publish the delinquent listing and as a result collected approximately \$2.8 million more of delinquent property taxes than prior FY03.
- Identification of additional \$6.2 million dollars in Section 30 monies. A project to reconcile withholding taxes for Guam Guard and Reserve members has recovered \$6.2 million for tax years dating from 1999 to 2002.
- Repeal of increase on Gross Receipts taxes from 6% to 4%. Changes were made with GRT forms to repeal the rate increase and to revert to monthly filing so as to more effectively gather statistical information necessary for effective financial management of our Government.
- Requirement to provide on-line (electronic) filing of Gross Receipts taxes. Currently DRT is fine-tuning the process and technical requirements in anticipation of beginning the GRT e-filing in November 2004.

- Creation of the Office of the Taxpayer Advocate. The administration has been responsive in addressing this need by issuing an Executive Order so as to create an interim Taxpayer Advocate. This office was mandated by the Guam Territorial Income Tax laws (mirroring the Internal Revenue Code) and is necessary to afford taxpayers an alternative avenue to resolve income tax matters with DRT. The Taxpayer Advocate now perfects the Notices of Deficiencies and Final Demand Notices that were once deemed to be defective by the courts. A bill currently sits with the Legislature to enact a public law for this office.
- Implementation of the Point Of Sale payment system: DRT, along with the Department of Administration (DOA) has implemented the Point of Sale payment system in August of this year. This system would allow immediate postings of payments and quicker revenue reports for use in planning the financial affairs of the Government. It would also allow the public quicker information on balances on their accounts and reduce the amount of bounced checks for the Government.

Department of Administration

- Began accepting credit card payments at all Treasurer of Guam locations.
- Installed a new IBM iSeries AS400 computer system. An example of improvement is that it took 5 hours to process the bi-weekly payroll on the old AS400 system. With the new AS400 it takes less than an hour.
- Implemented a Point-of-Sale system which can electronically process payments including checks with online updates to the appropriate accounts. This speeds up the process and eliminates the duplication of data entry for transactions.
- Automated the Purchase Order creation process at GSA which eliminated the use of typewriters reducing the process time, backlog, and error rate.
- Modified and simplified the Chart of Accounts allowing for more accurate and timely financial reports.
- Implemented the “dual year” functions in our financial management system improving the transition between closing one fiscal year and opening the new one.

Federal Grants

- Financial Management Improvement Plan (FMIP) under the Department of Interior and USDA-Pacific Islands Training Initiative – supplemental funding of \$400,000 to upgrade computer workstations.
- Under the Guam Office of Homeland Security – an upgrade to harden our network and system security measures against cyber terrorism.

Guam Contractors License Board

- Employing two fulltime investigators and a private secretary, which will help the agency enforce its mandates. In October 2004, GCLB collected over \$7,000.
- Upgrading technology using federal funding to allow greater efficiency in Licensing, Investigation and Administration Sections. With these tools GCLB will be able to run software tailored to track GCLB data and streamline licensing process, including archiving all documents information electronically, print contractor licenses and I.D. cards.
- Archiving of Licenses and backing documents will be possible with proposed upgrade of computer system and with GCLB current Xerox copier which will be upgraded to have a scanning feature at no additional cost.

Department of Labor

- As a result of the move from Tiyan and consolidation of offices, DOL was able to centralize its administrative and accounting processes and set up a Fiscal & Support unit. This unit set up standard operating procedures for the administration of DOL that created greater efficiencies, accountability and sounder management.
- The ALPCD unit processed 210 applications for the year an increase over the 67 of the previous year. It processed approval by the Governor of 340 alien importation and 49 alien extensions.
- Wage & Hour division received 110 complaints. One complaint was referred to the U.S. Department of Labor for their authority, one complaint was determined not to have their enforcement jurisdiction, 5 were resolved immediately, 5 were incorporated into on-going cases 3 were assigned for case investigation and the rest were determined to be non-investigative cases.

Hagåtña Restoration and Redevelopment Authority

- Established the Hagåtña Restoration and Redevelopment Authority Office and developed a strategic plan for the agency.
- Initiated the process for the Hagåtña Master Plan, announcing RFP. Plan shall include a Land Use Plan, Zoning Code and Urban Design Guidelines and Regulations for the City of Hagåtña. Board approved the results of the evaluations of the proposals and created committee to negotiate the fees with the consultant deemed best qualified for the project.
- Working with Department of Parks and Recreation, Historic Preservation, to implement a \$1.1 million grant to restore and renovate the parks in Hagåtña.

Department of Chamorro Affairs

- \$87,040 Grant Award through Administration of Native Americans (ANA) to conduct a scientific assessment to determine the status of the Chamorro language in the Pacific community.
- Initiated Visitors Welcome Center called MAILA HALOM at Chamorro Village in partnership with GVB; Selibrasion Chamorro Theme 2005: ANON FINO CHAMORRO YAN KOTTURA “Inina, deskubre, Setbesiu in partnership w/ DOE Chamorro Studies, KAHA; Poster contest based on the 2005 theme.
- The Authentication and Standardization Committee, an influential and respected advisory body consisting of individuals from various disciplines in Chamorro culture, language, history, tourism and hospitality, artistic and indigenous Chamorro organizations who gave of their free time to proposed a model law for the protection of traditional knowledge and expressions of culture for our island people. When completed, it will be submitted to the Governor as major heritage legislation for him to introduce to the new legislature.
- The 9th Festival of Pacific Arts: The Department of Chamorro Affairs helped organized approximately 145 Guam Delegation of Artists to represent Guam in July 2004 at the Republic of Palau. It is the largest delegation ever that participated. For the duration of the Festival, arts in all levels were displayed, performed and demonstrated. Weavers, carvers, applied artists, seafarers singers, chanters, dancers, storytellers all performed the three cultural changes of the lives of the Chamorro people.
- The Guam Museum (approximately 80,000 people visited this year). The Guam Museum, displaying a variety of the history of Guam’s heritage, provides satellite exhibits in Shopping Centers formerly at GPO, presently at the Micronesian Mall and tourist establishments in hotels and DFS Tumon.

Guam Council on the Arts and Humanities Agency

- Led Guam’s delegation to 23rd Annual Flame Tree Arts Festival in Saipan and the 9th Festival of Pacific Arts in Palau. Guam’s presentation at FestPac included a pageantry of performers, visual artists, crafts persons and presenters of traditional demonstrations.
- Effective October, the KAHA Arts and Culture Gallery became operational 7 days a week to allow the agency to serve its constituents on a daily basis. Throughout the year, 11 exhibits including cultural and traveling displays, a one-man show and school shows were showcased.
- Unveiled new Guam Tourist and Recreation Map by “Mr. Tourism” Bert Unpingco.
- Awarded a total of \$165,100 in grants to individuals and organizations in support of cultural, education and arts projects.
- KAHA received official notification from its federal grantor the National Endowment for the Arts (NEA) that KAHA was awarded \$241,100 for FY 2005. KAHA’s continuing partnership with NEA will ensure the development, growth, and perpetuation of the arts, culture and heritage of the people of Guam.

Guam Ancestral Lands Commission

- Returned over 180 lots, affecting over 6,000 families.
- Established Land Bank Trust.
- The signing of the Commission’s first License Agreement, in which proceeds will be used to compensate qualified landowners and to allow the Commission to become self-sustaining.

Guam Power Authority

- Generations focused on aggressive maintenance initiatives to bring all baseload units back online as a measure to reduce fuel costs to ratepayers. During 2003 and 2004, ratepayers paid approximately \$40,000 per day for baseload units Cabras III & IV being offline for nearly two years. Within FY 2004, GPA was able to reintroduce an actual schedule maintenance plan for generations prioritizing baseload units on through the diesel and combustion turbine units.
- GPA management also employed the performance management contract (PMC) as a hybrid approach towards privatization. Through the innovative approach of the PMC, GPA was able to privatize the management of operations for baseload units while retaining the workforce and assets for ratepayers. PMC were contractually obligated to meet performance standards for efficiency; GPA benefited through training opportunities under the PMC and by means of an expedited procurement process for parts and professional services via their industry contacts. Within 2004, GPA was able to privatize the management of Cabras III & IV to HSD Engine Co., Ltd.
- Synchronized efforts on fast track generating units were also prioritized. The fast track units are an integral part of GPA's generation assets. GPA's present management refocused efforts to bring these units to full generation capacity. During this year alone, GPA was able to restart the Macheche Combustion Turbine (CT) after nearly two years of inactivity; other efforts to revitalize maintenance activity with the fast tracks are planned for 2005 with both Dededo CT units as well as the Yigo CT.
- Early in 2004, officials from Andersen Air Force Base announced plans for an underground line to the Dededo power plant facility as a back up line for uninterrupted power during typhoons. Such a project not only highlighted the need to place lines underground; it supported GPA's long range revenue protection plans and the drive to regain investment grade with bond rating companies Fitch Rating and Standard & Poors.
- **Revenue protection:** Within operations, aggressive maintenance plans for the T&D division focused on minimizing forced outages and efficient operations. Restructuring maintenance activities focused on preventive maintenance, investments in technical training and equipment upgrades for personnel. Within 2004, GPA significantly reduced the frequency of forced outages, hastened disaster recovery operation times and revitalized technical training in T&D's specialized fields to meet GPA's expansion plans for future system upgrades and changing technology.
- The installation of new capacitor banks late in 2004 throughout the northern part of the island when completed will further improve the quality of electrical services delivered to customers. As an added benefit, the new capacitors will lessen the need to dispatch fast track units up north to maintain voltage for central and northern circuits – GPA expects the project to be completed early in 2005.
- Before the close of 2004, GPA will have completed a grid map of its entire system through its newly acquired ARC View mapping system. The mapping system is currently utilized by FEMA and will enable GPA to speed up processing of FEMA reimbursement claims and accountability of streetlights. Through the mapping system, GPA will be able to identify and locate each streetlight on the Island Wide Power System (IWPS) for billing and disaster reimbursement purposes. Streetlights will be mapped via a policy guideline to maximize the allotted legislative funding via the Abandon Vehicle & Streetlight Fund.
- GPA Engineering division has also been hard at work designing plans for use of \$20 million dollars in approved FEMA mitigation grants to place power lines underground; for example the line from Tanguisson Power Plant to GMH as well as other critical transmission lines to critical substation. By April of 2005, the plans should be complete and GPA should be able to break ground on this project. Coincidentally, a recent settlement through the Government of Guam/Department of Public Work will afford \$1.2 million every year to place power lines underground in certain areas along Marine Corps Drive and along Camp Watkins Road in Tamuning. Planning has already begun within GPA to incorporate this court order into long range plans to coordinate constructions of these underground lines.
- GPA initiated aggressive collection policies across all electric utility accounts early in FY04. Communications throughout all media forewarned customers of GPA intentions to collect on delinquent accounts; support from the T&D division enabled GPA to expand disconnect activities across more of the island. Within 2004, GPA reduced its delinquent collection ratios from 16 percent to 8 percent.

- During 2001 through early 2003, GPA had not adjusted its LEAC rate for over four periods resulting in \$13 million in unrecovered fuel costs. GPA worked closely with the Public Utilities Commission (PUC) for adequately adjust the LEAC rate to recover fuel costs and support maintenance costs through the recovery periods. Monies were reinvested back into generations to bring the baseload units back online; coincidentally, GPA was able to further pass on fuel cost savings to customers through the use of efficient generators and further keep the LEAC rates steady despite a chaotic and ever changing fuel market in the Pacific region.
- Through aggressive collections, GPA was able to bring vendor payables down to within net 30 days for goods and services; thus reestablishing the Authority's credibility with vendors.
- Early in 2004, GPA began an earnest attempt to resolve millions in FEMA reimbursements on typhoon repairs from as far back as Typhoon Paka. Over the course of months, GPA was able to reach a settlement agreement with FEMA officials and in July of 2004, \$9.4 million dollars was received for Paka claims. Other FEMA reimbursement claims were also forwarded increasing GPA's capital reserve funds to \$17 million dollars.
- GPA recruited 64 apprentices through partnerships with the Agency for Human Resource Development and the Guam Community College to fill critical positions in operations – generations and transmission & distribution.
- GPA also resurrected its Engineering Internship program as a means to expose and potential influence graduating engineering students from Guam to return and work for GPA.

Guam Waterworks Authority

- Reduced operations loss by 76 percent in the last two years. This is a reflection on the agency's streamlining efforts: a reduction in workforce through retirement and attrition (273 to 243 in the last year), cuts in overtime and equipment rental and a more stable operating system.
- Upgraded the Ugum Water Treatment Plant for the benefit of southern customers. New river pumps and flocculators with the addition of added polymers have allowed the agency to double the daily production to about 3 million gallons per day and, most importantly, allowed GWA to continue production and service during heavy rain and high turbidity levels.

Department of Public Works

- **School Bussing:** The department has improved school bussing service during the past year. Last year the department of Public Works averaged over 50 complaints per week on late bussing. Today the department receives less than 5 per week. Additionally the department has been proactive in addressing the long-term solution to the bussing delays that our government has experienced the past decade. Received a total of 69 new school buses and is in the process of recruiting 30 new drivers.
- **Trash Privatization:** In the process of privatizing two-thirds of the island's trash collections. This will allow private companies to service the community and allow for improvements in customer service.
- **Abandoned Vehicle Program:** Awarded a contract to a vendor to pick up abandoned vehicles around the island. Contractor responsible for the removal of all hazardous materials, delivering the vehicles to a recycling site, and shipping the vehicles off-island. The contractor will receive 60% of the payment when they pickup the abandon vehicle from the roadways, and 40% when the vehicle leaves the island.
- **Highway Maintenance Privatization:** Will be awarding 3 contracts to private companies to begin picking up litter and cutting the island's roadways. This is the first time the government has outsourced the beautification of our island. The project is a co-venture between DPW and the Guam Visitor's Bureau and will expend \$1.2 million dollars.
- **Privatization of Security Services:** Working on a Request for Proposal that will privatize the security of Public Works. For many years the department has been dependent on government employees to fulfill this function. As we move into the new year, this function will be privatized.
- **Privatization of Supply:** Currently working on a Request for Proposal to privatize the supply shop at DPW to expedite procurement matters. For many years the department has been short on supplies and parts to repair much needed vehicles as a result of the red tape associated with the government procurement process. Once this function is outsourced a privatized the department will have a private company put a "parts store" at DPW, and they will be responsible for fully stocking the department with parts and supplies for vehicle repairs.
- **Closure of the Ordot Dump:** The Department of Public Works has been working aggressively with the Guam EPA and has made great strides in closing one of the most toxic sites in the U.S. – the Ordot Dump.
- **New Schools:** The department is partnering with a private company in a municipal lease plan to build 5 new schools on Guam.

Guam Housing and Urban Renewal Authority

Senior Citizens Centers

- GHURA partnered with the Department of Public Health and Social Services, Division of Senior Citizens to construct and renovate senior citizens centers in the villages of Agat, Merizo, Santa Rita and Sinajana.
- A groundbreaking ceremony was held on November 14, 2003 for the New Construction of the Agat Senior Citizens Center across from the Mount Carmel Church, to accommodate up to 150 elderly. The total value of the activity is \$388,000.00.
- A groundbreaking ceremony was held on August 16, 2004 for the New Construction of the Merizo Senior Citizens Center, across from the Merizo Mayor's Office and Community Center, to accommodate up to 100 elderly. The total value of the activity is \$446,000.00.
- The senior center will be constructed on adjacent to the Santa Rita Mayor's Office, current Senior Citizens Center and Community Center. The Santa Rita Senior Citizens Center will accommodate up to 100 elderly. The total value of the activity is \$405,000.00.
- The Santa Rita and Merizo Senior Citizens Centers are designed to serve a dual purpose of a senior citizens center and as facilities to serve as emergency shelters and assistance centers following natural disasters. These facilities will be equipped with a backup generator and water storage tank. This will alleviate the usage of the public

schools as emergency shelters. The center currently accommodates 40 elderly. With the rehabilitation, the center is capable to accommodate 90 elderly. The total value of the activity is \$380,000.00.

- Since 1998, GHURA has renovated and constructed senior citizens centers in the villages of Yigo, Dededo, Astumbo, Tamuning, Mangilao, Inarajan and Yona. The Senior Citizens Centers are funded by the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) Program.
- **DOE Special Education Classrooms:** GHURA partnered with the Department of Education to construct three special education classrooms. Two classrooms are constructed at Jose L.G. Rios Middle School and one classroom at Luis P. Untalan Middle School. The total value of the activity is \$387,000.00. The special education classrooms are funded by the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) Program.
- **Para I Manhoben Rehabilitation:** On October 3, 2003, the Department of Mental Health and Substance Abuse held an open house celebration to officially open the Para I Manhoben Rays of Hope Center for services to the community. The rehabilitated center will replace the former facility in the old hospital staff housing area. The Department of Mental Health and Substance Abuse will operate the center.
- **Installation of Water Storage Tank at Catholic Social Service Elderly Apartments:** GHURA partnered with Catholic Social Service to install water storage tanks and an appropriate pump system to assist with alleviating low water pressure problems existing within the Catholic Social Service elderly apartment complex. The complex was constructed with HOME Investment Partnership Grant funds. The system includes two; 3000-gallon tanks, a dual pump system to provide pressure, and are protected with concrete, a chain link screen wall and a metal roof. The installation is valued at \$65,000.00. Funding was provided by the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) Program.
- **Rehabilitation of Liheng II Transitional Center:** GHURA partnered with Catholic Social Service to rehabilitate the LIHENG II Transitional Shelter to remove deficiencies to meet the standards of the Guam Housing Code. The eight newly renovated units will provide homeless and low-income families with affordable temporary rental housing and support services to enhance both personal and community awareness. The completion of this project is an example of ways to help combat homelessness on our island. The total value of the activity is \$211,000.00. Funding was provided by the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) Program.

Department of Agriculture

- Final disposition of the Critical Habitat designation by Fish and Wildlife Service: on October 28, 2004 Fish and Wildlife announced that of the 25,000 acres of land originally identified for critical habitat declaration, only 376 acres will be designated Critical Habitat. All private land, GovGuam lands and military lands are exempt from the designation. This was fought for by the Governor and the Department in court for nearly a year and a half.
- On February 18, 2004, Guam's Plant Inspection Station became an official entry point for live plants into the United States. Flowering plants from the Pacific Rim countries have been flowing into island nurseries at an ever increasing pace as a result.
- Federal funds were acquired this year to fund the first phase of the Department's move into the field of organic farming. Nearly \$100,000 has been earmarked from the Coastal Zone Management grant for the development of a tissue culture lab at the Department's main facility in Mangilao, the development of an organic farm and greenhouse, and USDA organic inspection training of Department personnel.
- Marianas Crow program saw seven successful births from parenting birds that were returned to the wild from the captive breeding program.
- The federal Brown Treesnake Act authorizes \$77 million over the next five years for brown treesnake interdiction, control and eradication, and endangered species recovery.

Department of Parks and Recreation

- Completed Phase I and II of its construction of the Paseo Stadium, in time to host the Asia Pacific Little League Regional Series. This prestigious youth event at the Paseo Stadium drew many thousands of visitors from Japan, Korea, Jakarta, the Philippines and Hong Kong. Also hosted our friends and families from Saipan, Rota and Tinian. The revamped stadium will boost our efforts to host regional sports events, and provides a nice home for our people to watch some of our top local baseball leagues and tournaments.
- Talofoto Bay Erosion and Mitigation Project: placed boulders on the entire shoreline of the park area to keep erosion in check with a permanent solution is conducted by the U.S. Army Corps of Engineers.

Civil Service Commission

- The fully empanelled Civil Service Commission has met continuously to address appeals from employees, adjudicating the appeals efficiently and reducing a previous backlog of cases. Staff has also fostered greater communication between adverse parties, bringing forward settlements and avoiding costly appeal hearings.
- Commission has ensured merit system compliance by government agencies through audits and inquiries of personnel practices and policies.
- Training has been offered to hundreds of employees in the areas of grievances, adverse actions, equal employment opportunity and sexual harassment.

Department of Land Management

- Approval of FEMA Hazard Mitigation Grant to indirectly finance the construction of a new land services building
- Completion of various long overdue projects and the planning for the completion of others such as:
 - location of the Inarajan Boat Ramp
 - location of the Agat Senior Citizens Center
 - new school sites
 - new Ija lots
 - new Pigua lots
- Department is being brought into upgraded information technology. New hardware and software procured through federal grants.

2004 STATE OF THE ISLAND ADDRESS
GOVERNOR FELIX P. CAMACHO

State of the Island Address

Governor Felix Perez Camacho

February 3, 2004

Lt. Governor Moylan, Mr. Speaker, Chief Justice Carbullido, Members of *I Mina Bente Siete na Liheslaturan Guahan*, Justices and Judges, elected officials, dignitaries, distinguished guests... MY FELLOW CITIZENS...

Sixty years ago, our people knew only too well the cost of freedom. On the eve of the 60th Anniversary of our Liberation, Guam's sons and daughters are answering America's call in another effort to liberate the oppressed people of Iraq... from those who would terrorize our nation and our world.

Hundreds of our proud soldiers are being deployed to support or replace those who are defending our way of life. As we take a moment to honor them, let us pay a special tribute to Army Specialist Christopher Wesley. Like the Chamorros before him, in wars fought throughout the last century, in places like Korea, Vietnam, Kuwait, Afghanistan, Iraq and even our own land, he too, laid down his life on the alter of freedom.

We must be worthy of the sacrifices they made ...by doing great things and by building a great land that they felt was worthy enough to sacrifice their life for. It is this unspoken trust that our Administration holds sacred...pressing forward on issues that affect the lives of our people. They remain in our prayers.

Not since the devastation of World War II, have our people faced extraordinary hardships as we did last year. And while the War was not of our doing, many of the problems we faced last year were due to the neglect of this government to fulfill its basic responsibilities. From water and power, to education and healthcare and across the wide spectrum of basic services, government failed and our people suffered.

Last year, our community was in the midst of recovering from the most costly disaster in our island's history... one that destroyed our homes and businesses, damaged our schools, crippled our utilities and further devastated our weakened economy.

Focused on recovering from Super Typhoon Pongsona...within a month, phone service was back and water was restored to the majority of our residents. A month later, power was restored. Within 45 days, most schools were opened and the construction of 117 new classrooms began.

But the most inspiring transformation took place in the hours after the storm left our shores... our island united. We saw it as neighbors came together to help each other clear debris... we saw it in the smiles of the waitress who served families... and in the dedication of those who worked around the clock...to bring us back while their own homes...lay in ruin.

That unity was needed more than ever...because the challenges didn't stop with Mother Nature. This government was spending more than it was collecting. We inherited a \$280 million dollar cash shortfall. Payless paydays loomed...and a potential shutdown in government services was a real possibility.

TODAY, our government is better than the one we inherited...with achievements founded upon the principles of accountability and public trust.

MAKING OUR GOVERNMENT LIVE WITHIN ITS MEANS

With the threat of financial collapse, it was clear we had to take immediate action to keep our government open. To force our government to live within its means, a systematic process began to account for every tax dollar collected and spent. Retirement obligations were paid down. We held the line on vacancies and transferred hundreds of employees off the General Fund into federal funds and other sources. As a result, 718 employees were moved off the general fund in our first nine months. Payroll was reduced by \$1 million per pay period... and expenditures decreased by more than \$84 million dollars.

Today, we are turning the finances around...

GENERAL ACCOMPLISHMENTS

- Through aggressive cost containment and revenue collection efforts, the Port Authority reversed a \$13 million deficit in six short months.
- In just six months, a once bankrupt Guam Housing Corporation paid off a decade's old debt and returned to financial solvency with enough strength to now provide new loans to our moderate to low income families.
- For the first time in years GTA has a profit of \$10 million dollars attracting investors for privatization.
- Despite the previous mismanagement of Airport funds today the Airport reports higher revenues than expenditures, saved \$14 million through bond refinancing and is spending \$60 million in capital improvements. It is well on its way to restoring its "Triple A" investment rating.
- The Guam Memorial Hospital was our first agency to move toward downsizing, reorganizing, privatizing and outsourcing. Though their initial efforts have been hampered by restrictive regulations, GMH increased collections by \$5 million and reduced expenditures by the same amount.

- Today, the Chamorro Land Trust and Guam EPA are off the General Fund and the Ancestral Lands Commission and Contractors Licensing Board will soon follow suit.
- For the first time in years, line agencies are current with their Retirement Fund payments and supplemental Annuity payments to GovGuam retirees have been restored.
- We also paid \$60 million dollars in tax refunds for 2001 and 2002. We aggressively collected \$40 million in past due taxes and reduced Federal receivables by \$29 million.

2003 was filled with challenges and I am proud to say my Cabinet, Boards & Commissions and their employees overcame many obstacles in order to keep our government afloat. Together we stabilized our finances. Thank you for an outstanding job.

All combined, your efforts reduced government expenditures by more than \$84 million dollars. The tough measures we took in Fiscal Year 2003 stabilized government finances but there's still much more to be done.

RELATIONSHIP WITH WASHINGTON

I went to Washington D.C. to make Guam's case on three separate occasions.

- The first trip resulted in the creation of the Interagency Group on Insular Areas by President Bush and \$10 million dollars that helped employ 800 displaced workers.
- During my second trip, the Congresswoman, Speaker and I testified before Congress in support of the Compact Impact Reconciliation Act before Congress. This resulted in \$14.2 million in Compact Impact funds for the next five years and the potential for \$187 million in debt reconciliation.
- As a result of my last visit, the IGIA delivered on my request for 100 percent cost share reimbursement for the Pongsona Disaster. We also told Washington that positioning military assets on Guam is critical to the defense of our nation. We can see today that Guam's voice is being heard.

In Washington, I met with President Bush and members of Congress all in an effort to make Guam's case for more federal assistance and more recognition. The results have been tremendous.

The Department of Defense has rediscovered the strategic importance of Guam. Secretary Rumsfeld visited Guam... we are part of the global realignment of military assets.

US Secretary of the Interior Gale Norton, Deputy Assistant Secretary of the Interior David Cohen and the Congressional delegation headed by Congressman Richard Pombo, Jeff Flake, Denny Rehberg, Dennis Cordoza, Lucas and Eni Faleomavaega preceded by Congressman Dan Burton all visited Guam. These

visits by cabinet and congressional officials will bode well for Guam in the months and years ahead. We now have new advocates in Washington D.C.

We must take advantage of the momentum we created to address the broad range of issues we face. Like Governor's before me, I will reinstate the Governor's Office in Washington so that Team Guam can work both the Congressional and Administration side more efficiently and effectively. This will allow us to obtain even more federal funding. I thank Guam Congresswoman Madeleine Bordallo's staff for identifying a possible office site. I'd like to give her a round of applause for the job she has done.

PUBLIC SAFETY

I am proud to announce that this was one of Guam's safest years in history. Crime is down and not a single prisoner escaped from the Department of Corrections in 2003. Millions of dollars in illegal drugs were kept off our streets. Numerous government corruption cases were investigated and thousands in stolen property was recovered. More Customs and Corrections officers were hired. And new police recruits will soon patrol our streets and protect our homes.

Guam's Office of Homeland Security was one of the first in the nation to receive \$12 million dollars in federal funds to protect our borders. Guam is one of four finalists to host "Top Off Three"... a national anti-terrorist exercise to provide training for Weapons of Mass Destruction attacks. We welcome efforts to stage TOPOFF 3 here. And I want to welcome Butch Colvin, Executive Director of the TOPOFF exercises who is here for a site inspection as we compete to host TOPOFF 3. Director Colvin could you stand and be recognized.

EDUCATION

The Department of Education always has received the greatest amount of funding, personnel, facilities, and supplies because they are responsible for educating our children. With a newly elected policy board, a new and permanent Superintendent, Juan Flores, they have faced challenges unlike any other. All the schools received major damage from Pongsona further compounding their many challenges, such as:

- Budgetary constraints;
- Damaged classrooms and air conditioners;
- Poor water pressure;
- A shortage of teachers, textbooks and school buses;
- Crowded classrooms;
- Outdated equipment and unsafe cafeterias;
- ...And much more.

Last year, government employees, businesses, the military, civic groups, parents, teachers and students all joined forces to paint classrooms, cut grass, fix air conditioners and raised money for textbooks so our kids can have the proper learning environment they deserve. To all of our volunteers, we say thank you!!

Already, 73 of the one hundred fourteen classrooms have been completed and Jose Rios Middle School was finally reopened after six years. Just yesterday, we opened 12 new classrooms at D.L. Perez Elementary School in Yigo. Still more needs to be done.

As part of government-wide reorganization, we propose major changes in the way we run our most important department. Decentralizing public education, privatizing non-academic services and giving the schools back to the community will allow DOE to focus on teaching our children. It is DOE's job to teach our children; it is our job as leaders to give them the resources they need to teach.

BUILD NEW SCHOOLS

We must find the money to pay our cost share for typhoon-damaged schools and insurance. However, because of our aging school facilities, the expected population growth and the need to reduce class size, we must start building new schools.

It is not enough to demand change without building for the future. In the next three years, this Administration will build three high schools, one in Mangilao and two in Dededo -- a middle school in As Tumbo -- and elementary schools in Asan, Liguán Terraces and Adacao. These seven new schools will be built in existing neighborhoods wherever possible to alleviate overcrowding, the need for busing and to improve existing infrastructure. We also will convert JM Guerrero Elementary in Harmon to a middle school as intended. Together with DOE, we also are working on a schedule to upgrade and improve existing schools.

Just like I did for UOG's College of Business and Public Administration which went out to bid last week, we will combine local and federal programs and funds to build these seven schools, including Compact Impact Aid, HUD funding, proceeds from the sale of GTA, the lease of JFK and lease to own agreements. In two years, the education bonds will be paid off...freeing up \$17 million a year in obligations that will also be earmarked to build additional schools.

We can either surrender to our circumstances or we can rise to a cause that is so great, our circumstances won't matter. We cannot just wait for the perfect conditions; otherwise, nothing will get done. Our responsibility as leaders is to put our children before our politics and build these schools.

Let it be the legacy of our generation... that those who follow are responsible, capable, more prosperous and armed with the knowledge and skills to elevate Guam's place in the world. This legacy will be founded in the education we provide our children.

SUBMISSION OF '05 BUDGET

This morning, I submitted the Fiscal Year 2005 budget summary to the Legislature. This budget continues the work accomplished over the last fiscal year and redirects our focus from recovery, to moving our economy forward and continuing to demand fiscal responsibility in our government. Through bold and decisive actions this Administration accomplished things never before seen in 33 years of self-government on Guam. We reduced the overall expenditures of the government while increasing past due tax and federal reimbursement collections.

We facilitated the reduction of General Fund positions and held the line on filling positions that were vacated over the course of the fiscal year. This enabled us to begin a process of paying down a list of obligations and helped restore fiscal stability, in turn contributing to the turnaround in our economy. This Administration continues to refocus on fostering the development of the economy.

Revenue projections for FY 2005 are at \$440 million... a 7.3% increase over this fiscal year's adopted revenue level of \$410 million. This is a result of a stabilization of private sector employment, increased military spending, visitor arrivals and construction activity.

Mr. Speaker and members of this Legislature, before you is a balanced budget summary that clearly delineates the people's priorities – education, public safety, health care and economic growth. You now have more than eight months to discuss and review this comprehensive plan, gather our public's input and join in our commitment to prioritize spending.

Let us stay true to our commitment to privatize and reorganize, to pay debts and fix our infrastructure. The policies of our government can and MUST spur economic growth... create jobs, and allow our people to own businesses and determine the course of their future. It's economic growth that will provide revenues for government to do its job.

2004 will be a year of unprecedented blessings...With the finances and resources needed to accomplish our mission.

As leaders we have been given great authority and great responsibilities. Our people are watching us to see how we respond to matters at hand. We cannot be led by emotion alone... Our leadership must be built on principles.

PRIVATIZATION

Talk of privatizing GovGuam utilities and services has not been very popular. There are career GovGuam employees affected and so many issues must be taken into consideration. But we all must have the will to do what is right and what is best for all the people of Guam.

GovGuam simply does not have the financial ability to upgrade our infrastructure and provide the level of service our people deserve.

GTA is the only remaining government-owned telephone company in America. When it is privatized the quality, variety and world-class services will be equal to other countries. Right now, it is not there. Multinational corporations have expressed interest in purchasing GTA... and this is why I am urging you to join me in doing the right thing and privatize GTA NOW!

GTA's privatization bill #204 is before you... now you must fulfill your commitment by passing a bill that reflects the market conditions in which GTA must be sold. As part of Compact Reconciliation, I will ask that GTA be relieved of its federal loan in order to infuse millions into the public coffers.

Guam's Port is the only remaining government-owned and operated port facility in America. Singapore is the only other government-run port in the world but they are in a totally different league as one of the busiest in the world. As with GTA, I applaud your will to privatize the Port Authority. However, if we expect multinational corporations to invest hundreds of millions to purchase government agencies, we must approach them as one government. The effort of this body to interfere by re-negotiating a contract after it is awarded discourages investors, can entangle this government in legal challenges and goes against the very Constitution and Organic Act that we swore to uphold. Congress never re-negotiates a public bid... why should the Guam Legislature?

I have placed members of this body on evaluation committees and to negotiate contracts with this Administration to ensure that the legislature's concerns are addressed... and I will do so again. You have done your job by passing Port privatization... let this Administration do ours.

GWA is almost totally government-run – a few wells are maintained and operated by a private company. However, for many years our water and wastewater facilities and services have been one of the most serious issues of concern to our people... whose patience has worn thin. Drastic action must be taken.

The problems of GWA are systemic. We simply have an old water and wastewater system. This government does not have the financial resources to fix it. Privatizing water and wastewater services appears to be the only option remaining.

We can no longer delay this matter. Let us stop worrying about the next election... Let us stop worrying whether we will lose votes if we privatize; and instead let us do what's best for all the people of Guam. We are sick and tired of inadequate water and sewer services.

I am confident that GWA employees, like the employees at GTA, will see even greater opportunities to fully use their God-given abilities to do a great job. Privatize GWA... the employees and the people of Guam deserve better.

As leaders, we must make privatization a priority. The same benefits that come through privatizing GTA, the Port and GWA can come from privatizing trash collection, maintenance, busing and cafeteria services. I urge you to reconsider the privatization bill I sent you last year.

REORGANIZATION

Ladies and gentlemen... Nothing shapes our lives more than the commitments we make. Our commitments can elevate us or they can destroy us, but either way, they will define us. To change the quality of our lives, we must change the way we think. If we are to make things better... we must break from doubt and uncertainty and, to paraphrase Sir Isaac Newton... we must stand on the shoulders of the giants who came before us... to see more clearly... the vision of a greater Guam.

By this summer you will have 12 bills before you that reflect the reorganization of the Government of Guam, reducing 48 agencies into 12 departments that will change the role of government in our lives... Changes that our people have demanded of their government for many years. Each will require a great deal of time and serious debate.

In the end, it will redefine and combine the missions, duties and responsibilities of this government. It will remove duplication and tear down the territorial walls of agencies that have frozen this government in bureaucracy.

Under the guidance of Lt. Governor Kaleo Moylan, the Reorganization Committee comprised of my Cabinet, members of this Legislature and people from all sectors of our community has worked diligently on the comprehensive bills that will come before you. We also intend to submit an amended budget that reflects the structure of my reorganization plan... this new budget will continue to hold the line on operating costs.

At this time, I would like to thank them for all of their efforts to transcend the traditional role of our government.

RECLASSIFICATION OF EMPLOYEES

Reorganization will bring new roles and responsibilities to better serve our people.

The next step in reorganization will be the government-wide reclassification of all job standards, qualifications, responsibilities and duties of every position in the newly organized Government of Guam. This mandate of law has not occurred in the last six years.

ECONOMIC TURNAROUND

There is a new sense of optimism on our island. What I present today is about more than just the progress of our government... it is about the progress of our island.

Our work continues with the steady restoration of thousands of jobs lost during our economic downturn. We must diversify our economy, continue with our campaign for increased military presence and expand Guam's number one industry-tourism.

TOURISM

Today, we are all seeing the signs of recovery... the results of our collective efforts. Since June, we have seen a steady increase in the number of visitors. In the last quarter of 2003, our arrivals totaled more than 202,000 visitors...and our Japanese arrivals were 6% over last year. In January, arrivals exceeded the 100,000 mark for the first time since August 2001. In 2004, we are aiming for the full restoration of our visitor arrivals.

Last week I held a Tourism Summit to develop a three-year marketing strategy for sustained growth in visitor arrivals from our main markets... to establish a long-term plan for the maintenance and development of our tourism plant... and to reestablish Guam as the world-class destination we truly are.

What many have talked about for years, we already have made a reality. Last year, I committed to developing Guam's sports tourism market... Today, even as we speak, the Yomiuri Giants are practicing at the Leo Palace Resort covered daily by nearly 100 media representatives for millions of Japanese viewers at no cost to our government. The Consadole Sapporo pro soccer team and the Japan National Women's Swimming and Softball squads are training on Guam this month.

Just last month, the S.K. Ravens professional baseball team from Korea trained at the Paseo Stadium.

If we had succumbed to those who doubted Sports Tourism we would not have the success we see today. I call on our leaders and community to unite as we pursue other avenues to grow our economy.

CHINA

We are committed to opening the People's Republic of China as our new market. In October, I met with China's Foreign Minister and other Chinese Cabinet level officials in an historic meeting to discuss tourism and trade potentials between Guam and China. As a result, last month the Director of the Chinese Foreign Ministry visited Guam for the first time to follow up on our application for Approved Destination Status.

China's outbound travel exceeds seven million. By 2020, it will grow to more than 20 million. We must prepare our visitor industry to receive these tourists in the near future.

That's why I'm pursuing China's Approved Destination Status for Guam and U.S. government approval of a Guam-only Visa program for direct flights from China.

The port visit by two Chinese naval ships, the visit by Secretary Rumsfeld and the encouragement I received from both our nation and China shows the change in direction both countries are taking to build closer ties, strengthen economic relations and share regional responsibilities. As Americans, it is our duty to foster mutual trust in our international community.

PRODUCT GUAM

As we continue to increase our visitor arrivals, we remain focused on improving "Product Guam". Phase Two of Tumon Bay Redevelopment is nearing completion. We also are focused on visitor attractions in southern Guam and Hagåtña.

Hagåtña Revitalization will accomplish three things: restore dignity to our historic capitol city which is a vital cultural center for our island that showcases Guam's history and heritage ... and allow small businesses to have a greater share in the tourist retail market. It will also address a constant concern of visitors... the lack of cultural attractions unique to Guam.

MILITARY

We also continue to make our case for increased U.S. military presence on Guam. Over the last year, my Administration forged a relationship with the U.S. military that continues to benefit Guam. Two carriers visited Guam four times last year. We hosted Tandem Thrust 2003 with its 8000 sailors and soldiers from three nations that infused millions into our economy. The Defense Department has put Guam on the short-list of priorities for a carrier, bombers, a fighter wing and tankers.

The military has already pledged \$163 million in construction at Andersen Air Force Base alone. This shows a significant commitment by the military to upgrade their facilities for greater use. The USS Frank Cable is currently undergoing an extensive six-month overhaul at the Guam Shipyard, the first active naval vessel to be dry-docked there. And by summer we will welcome the USS Houston, the third fast attack

submarine to be home ported on Guam. Guam has reestablished itself as America's frontline of national defense.

RETURN OF LANDS TO ORIGINAL LANDOWNERS

Another key component to economic growth is the return of excess lands to original landowners. Before I entered office, only 30 parcels of land had been returned to owners and their families. And the Ancestral Lands Commission continues to locate, research and prepare applications for Title Hearings so we can return all lands to their rightful owners. Since January of last year, your government returned an additional 143 parcels benefiting 2,000 families. Congratulations to the Ancestral Lands Commission for a job well done.

Land in the hands of private citizens will build houses, start businesses and secure the futures of thousands of our island residents.

DIVERSIFYING ECONOMY

My administration remains focused on creating new industries including an Arbitration Center. We continue to market UOG and GCC as the closest US educational institutions to Asia. We also are marketing captive insurance on Guam. This month, we expect to receive approval for a USDA Inspection center for plants and flowers, which we expect will spur increases in imports, transshipment and export activities.

We are working to develop industries that take advantage of our proximity to Asia... our telecommunications assets...and the strength of our United States status. We are already developing fish farms, a film industry and airport and port industrial parks. We are also working with our neighbors in the Marianas and Micronesia to develop Guam as a center for regional healthcare.

Diversifying our economy also creates new opportunities for Guam's small businesses. We are starting to see an increase in new business licenses as our people begin to embrace the entrepreneurial spirit that is the backbone of our economy.

JOBS

For the first time in four years, more than 2500 jobs were restored in construction alone... and work hours were restored in our visitors industry. While we are far from the full restoration of our economy... jobs created in the private sector and the increase in revenues are telling signs of positive growth.

RENEWED OPTIMISM

Today, I stand before you proud of our community's achievements and the opportunities that lay ahead of us in this New Year. Empowered by the optimism of many within every sector of our community I know we are ready to shape the direction of this island as a society united by a common interest to succeed.

We place the past behind us... we leave for history to judge the errors of the government we inherited, the solutions we incorporated and we welcome a new chapter in our journey to prosperity.

CALL FOR GREATER COOPERATION

Mr. Speaker, this last year the Administration engaged the Legislature in dialogue for progress that at times was met with healthy debate and at times eager bi-partisan accord. While this is the nature of democracy, we must always ensure that our discourse results in the greater good. We must establish a covenant with our people to improve education, spur our economy and set the boundaries of authority that our government has over our people's lives. This is not about you or me, one person or one political party; it is about our service and our responsibility to the people of Guam.

There is great diversity within this melting pot of cultures and individuals on Guam. This reflects her greatness as a free society. But at the same time, there are common hopes, common dreams and common goals we all share:

- A desire to live in peace and security;
- A love of family, community... friendship;
- The opportunity to learn, grow, and fulfill the highest expectations we have of ourselves;
- A desire for good health and long life;

Our greatest success has come in the unity that allowed us to rise above our insecurities with one mind, one spirit, one purpose! I call for a greater level of cooperation and bipartisanship. Together with our community we will:

- Build new schools;
- Prevent crime;
- Improve healthcare;
- Spur existing industries and develop new ones;
- Increase military presence;
- Increase federal funds;
- Restore fiscal responsibility;
- Privatize government functions;
- Undertake the single-largest reorganization of the government of Guam;
- And renew public trust.

Another chapter in the history of our island has closed and a new era has begun. This chapter will be one of planning, building, repairing...one of accomplishment, success, and prosperity.

Before I close... I want to thank the people of Guam... it was your hard work, dedication and perseverance that truly got us through last year.

Those of you in the private sector... you truly are the backbone of our island. You have borne the brunt of the burden for too long... enduring job losses, reduced hours and uncertainty. And yet, when our island needed you most you answered the call. My highest priority is to ensure that we strengthen our economy to provide you with the opportunity and stability that you haven't know for nearly a decade. Thank you.

To the government employees... Last year was the most difficult we experienced decades. The 32-hour workweeks, the restrictions in overtime, hazard and night differential, the reduced leave accumulations... the difficult working conditions and lack of resources were borne by you, as you carried out your duties under the most strenuous of conditions, and many times in the most futile of circumstances. You are not only the unsung heroes, but the much-maligned servant over things not of your making.

But I, and so many of our leaders, saw your strength, perseverance and shared sacrifice get us through. ... This year we will see remarkable progress for the sacrifices you all made last year. For this I thank you...we are truly grateful.

This is my prayer... "To act justly, love mercy, and walk humbly with God...Let not mercy and truth forsake you...so find favor and high esteem in the sight of God and man...for therein lies true prosperity.

Thank You. God bless you and your family. God bless Guam. God bless America.

2003 STATE OF THE ISLAND ADDRESS
GOVERNOR FELIX P. CAMACHO

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

Good Morning... Lieutenant Governor Moylan, Mr. Speaker, Mr. Chief Justice Phil Carbullido, former Governors, Consulate Generals, members of I Mina' Bente Siete Na Liheslaturan Guahan, Attorney General Douglas Moylan, Public Auditor Doris Flores Brooks, President of the Mayors Council Mayor Robert Lizama, Rear Admiral Patrick Dunne, Colonel Jeffery Levault, Captain Robert Lorigon, members of the clergy, District Court Judge John Unpingco, Acting Presiding Judge Elizabeth Barrett-Andersen, associate judges and justices, Mayors and Vice Mayors, Cabinet members, former lieutenant governors, speakers, delegates, senators, judges and mayors, members of the Consolidated Commission on Utilities, members of the Guam Education Policy Board, public servants... My fellow citizens... Thank you for taking time to be here today. I would like to also recognize First Lady Joann Camacho and my mother, former First Lady Lourdes Camacho.

Before I begin,.. Lieutenant Governor Moylan and I would like to thank the men and women of our armed forces who contributed to the Liberation of Iraq.. and the toppling of Saddam Hussein's regime. We are proud of your work in advancing the cause of freedom... A grateful island... and nation thank you.

Ladies and Gentlemen, I stand before you this morning to deliver the state of our island. From our first day in office, we have been honest with you about the challenges facing us. Over these past 128 days, we have learned the true magnitude of our problems--taking the first of many difficult steps to overcome them. Yet, despite these adversities—we are moving our island in the right direction. In the long run Guam's economy... education... health... utilities... homes... and families will be better for the sacrifices we all make.

From the outset, Lt. Governor Moylan and I committed to controlling the cost of your government... to ensure that it lives within its means-- A government that would serve you better—whose boundaries would end... where your individual choice begins—and that would nurture success in our people. The future of our island... belongs in the greatest hands we

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

know—yours--the people of Guam. We are well on our way to securing your future and the future of our children.

JUSTICE TAITAGUE:

In this short time our island experienced some remarkable moments... like our people coming together in the National Bone Marrow Drive for the sake of a child... named Justice. Through little Justice Taitague we became a community united by love—called to a higher purpose. Thank you Doctor Thomas Shieh and the Guam Medical Society.. for showing all of us that the compassion of a doctor.. extends beyond your offices and into the homes of our people. And Thank you Tony and Lynn Taitague.. for allowing us to be a part of your precious daughter’s life. She touched our hearts and showed us the face of God.

We call upon this same spirit of community and higher purpose as we face the harsh realities of a bankrupt government -- of an economy in the midst of its longest and deepest recession -- and recovering from the destruction of Guam’s most damaging Super typhoon in twenty-six years.

Super typhoon Pongsona caused more than one-quarter of a billion dollars in damage – twice as much per capita as any in our nation—a national record we would rather not have. It damaged every one of Guam’s 35 public schools. It crippled our utilities. It caused mandatory gas rationing. It forced government and family alike to spend money they did not have... And it set back Guam’s economic recovery by months.

DISASTER RECOVERY and UTILITIES:

Yet despite this, we came out of the typhoon... better than we were before. We no longer endure long-term boil water notices... or unexplained power outages. Water outages were reduced. The practice of “water-shifting” was halted. And many areas now receive water on a more consistent basis-- a goal our Administration sought and Senator Joanne Brown fought long and hard for. Today the power plants of Cabras III & IV are also being restored.

We are working with the Consolidated Commission on Utilities... that you elected... based on the law authored by Senator Mark Forbes. I ask the commission to plan for underground power lines

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

to comply with the law authored by Senator Tina Muna Barnes that I signed. Moreover, that they continue their efforts to outsource and privatize... preparing Guam for new growth.

Many people were laid off in the aftermath of Super typhoon Pongsona. After reaching out to U.S. Labor Secretary Elaine Chau for assistance... we were awarded \$10 million dollars that now employs and trains hundreds of our people.

In spite of GovGuam's previous misuse of typhoon recovery funds... we convinced FEMA to pay 90 percent of our recovery costs. While in Washington D-C last week... I continued to present Guam's case and requested FEMA to cover 100 percent.

Our government agencies have completed their applications for federal assistance... and currently FEMA has obligated more than \$30 million dollars to reimburse emergency expenses and initiate restoration projects. We also have secured more than \$30 million dollars to mitigate future disaster losses... I am also pleased to announce that this week FEMA has set aside more than \$6 million dollars to assist us in replacing damaged classrooms. Making schools safe for Guam's children is our top priority.

Following the Super Typhoon we reached out to Japan and Korea... to tell them that Guam would be open for business sooner than they anticipated. Two hundred media and travel professionals came to Guam and saw for themselves how far we had come... in so short a time. As a result, our post-Pongsona arrivals improved immediately. But today we are confronted by new challenges. Our tourism industry has been hurt by the impact of the Liberation of Iraq, the North Korean nuclear situation and the threat of SARS.

These events, all beyond our control, contributed to our economic decline. But our problems, aggravated by outside events, have been caused mainly by our own government's lack of foresight and moreover... lack of discipline.

LACK OF ACCOUNTABILITY:

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

Reckless and uncontrolled spending,... hiring sprees,... disregard for federal funding requirements,... a lack of fairness in procurement and accountability... have been the hallmark of the past. All this is now changing.

We assumed office with a government facing a combined budget and cash shortfall of more than \$280-Million dollars... and an economy confronted by typhoon, war and disease.

BONDS AND COST CUTTING MEASURES:

Both our Administration and the Guam Legislature acted decisively to avoid payless paydays and a government-wide shutdown. We have been forced to make the difficult choice to reduce hours,... consolidate services... and outsource... to lower the cost of government—simply because the alternative would be a payless payday for all employees. Today our GovGuam employees are paying the price of past misspending and over-hiring.

I'd like to thank you Mr. Speaker and the Guam Legislature for their cooperation over these last few months in dealing with a government in crisis... and an Administration in transition. History may not remember every single way we contributed to this island's betterment... but it will remember if we failed to try. The courage to take on challenges... and the success we've had in meeting them... will distinguish us from others. This same sense of purpose will help us meet the challenges ahead.

The recently passed \$248 million Revenue Bond is a necessary step in the right direction. "Necessary"... because shutting down schools, safety, health, utilities and the welfare of Guam is not an option. The revenue bonds will pay millions in past vendor debt and free daily collections to keep critical services operating. I would like to thank Senator Toni Sanford for introducing, at my request, this critical bond bill.

We continue to pay the price of mismanagement, as the recent downgrade of our bond rating from "B-B to B" reflects. We must begin to restore Guam's credibility in the world's financial and investment community—for today and tomorrow's generations.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

The state of the world economy... recent regional and international events... and the devastation caused by Supertyphoon Pongsona have hampered our economic recovery efforts. Guam's recent credit rating downgrade calls for a commitment to a solid recovery plan. Standard and Poors cited the need to address three areas in order to improve our standing amongst investors: our economic dependence on tourism, the budgetary imbalances, the high debt burden and the excessive unfunded pension liability.

My administration is already taking steps to restore Guam's investment rating. We have been working closely with our financial advisors, Bank of America Securities, to move Guam toward a stronger fiscal position.

Both my Administration and the Guam Legislature have made the painful decisions to keep our government running... The authorization levels of this government have been dramatically reduced in the past two fiscal years through a budget crafted by Lt. Governor Kaleo Moylan and this Legislature's recent enactment of Public Law 27-05. We have:

- Permanently amended GovGuam benefit packages
- Limited leave earned
- Restricted overtime to just uniformed personnel
- Implemented a plan to outsource government services
- Expedited the construction of CIP projects
- Relocated government offices out of Tiyan
- Eliminated the practice of double dipping in my Cabinet and Office
- Begun aggressive tax collections and are working with the Department of Interior to bring federal agents to assist in these efforts
- Expedited the reimbursement of federal funds
- Provided over One Million Dollars to GVB for the Summer Marketing Program

The Guam State Clearinghouse -- directed by Lt. Governor Kaleo Moylan -- will allow us to better monitor, audit, and recover all federal funding. We can expect that over One Hundred Million Dollars (\$100,000,000) a year -- in cash flow reprieve -- will be realized by simply transitioning from a reimbursable to an advance system of funding for all federal grant-in-aid.

We need to finally restore GPA's investment rating and ability to rebuild... without burdening our citizens with higher power rates. We need to finally eliminate the budget deficit, restore retirement to true solvency, and build and repair schools.

I ask this body to revisit our borrowing authority to include eliminating the deficit, closing the Ordot landfill, paying off the retirement debt, paying outstanding GPA payments, funding Guam's share of post-typhoon recovery, and funding a marketing plan to increase our visitor levels.

Committing to a solid, long-term financial plan will allow us to convince Standard and Poors and our investors that this government is committed to full recovering and expanding the economy. It is imperative that we join hands toward this goal. My office -- in conjunction with our financial and economic advisors -- has put together an outline for a 5-year plan that will incorporate both short-term and long-term plans to bring our island to fiscal solvency. I invite our Senators to work with me on developing and refining this plan.

Our road to financial stability is filled with challenges that will test our will and character to return our island to its state of prominence in the region.

I thank Vice Speaker Aguon for offering to work with us to make the changes that will make this a reality. And I ask the other members of this body to join in our efforts to end Guam's financial and economic crisis once and for all.

CUTTING COST TO AVERT PAYLESS PAYDAY:

Both my Administration and the Guam Legislature have made the painful strides to keep our government running. Over the last three years... the government of Guam experienced a decline in revenues more than \$100 million dollars. In the previous two years, we reduced the authorization levels of government by more than \$100 million, through a budget authored by Lt. Governor Moylan... if the previous Administration had followed this plan, we would not be in the predicament we are in today.

This year we reduced the cost of running this government by more than \$40 million dollars. By the end of fiscal year 2004, we will reduce the expenditure levels by \$100 million more with this plan.

The harsh reality of our economy and our government's financial state leaves us no choice. Our community must begin to understand that government cannot be all things to all people... that public employment is not an entitlement, but a service. The success of our own people can no longer be held back by the failure of government to deliver basic services.

Good government is silent... It protects, but does not impose. Good government listens and responds... but never dictates. It supports more and limits less. And it always allows people to freely determine their own dreams and success. Stewardship is leadership that serves... in all ways, at all times, for all people.

GOVERNMENT CONSOLIDATION:

Reducing the cost of government is only the first step in improving public services and stabilizing our economy. Today we stand at the doorstep of our greatest opportunity... to redefine the role of government in the lives of our people. But it won't be easy—great tasks never are. And everything always seems impossible before it works.

Thirty-three years ago, this government consisted of 18 agencies. On January 6th, we inherited 52. Over the years, this government doubled in size – then it nearly doubled again. Our people grew accustomed to the notion that government was the answer to all our problems. Some have even used government to perpetuate their political authority – manipulating public resources for their own political gain.

Today our government provides power ... as one of the only publicly owned power companies left in the nation. We provide telephone services... as the last remaining publicly owned telephone exchange in America. Our port is one of the few publicly operated ports in the world.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

Our government pays more for the medically indigent than it would to simply insure them. We have millions in longstanding receivables that private companies could handle now... simply for a portion of what government has proven it cannot collect anyway.

And there are dozens of other government services that private companies could better provide. Outsourcing provides critical services for less money, circulates more tax dollars back into our economy and create jobs... Government must embrace the private sector – not compete against it.

While reorganization has been thrust upon us by economic realities, it is certainly long over due. With legislative support and approval, the government of Guam will be reduced to as few as 12 departments with a thousand (1,000) fewer positions from the Executive, Legislative and Judicial Branches paid for by local funds. I submitted a budget proposal to the Guam Legislature that reflects these changes because delaying the inevitable is not an option.

Reorganization, however, requires cooperation from the Legislature. I invite all the members of the Guam Legislature to join this effort. Reorganization is not only necessary—but also the right thing to do.

CAMACHO MOYLAN PROMISE OF CHANGE:

Confronted by harsh realities and even harder choices, we are doing everything possible to minimize the impact on employees' lives.

I signed the law, authored by Vice Speaker Frank Aguon, which gives employees the first right of refusal for services that are outsourced. Previous law already requires companies awarded these services to pay Federal government wage levels. Employment and housing assistance programs are available... And there are entrepreneurial programs for those who wish to open their own business and compete for services being outsourced. The changes we make are being done with alternatives for both public and private employees.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

In just one hundred days we have brought about the most sweeping changes our island has seen in 33 years of self-government. We will not waver in our mission is to restore the trust of our people, our nation and the world in the government that serves Guam's people.

FIGHT CRIME AND CORRUPTION:

Restoring trust begins with keeping our streets safe and our public agencies free from corruption or abuse... Already, former government officials and employees have been convicted, charged or are currently being investigated for their wrongdoings.

Our administration's newly established Government Corruption Task Force... under Acting Police Chief Earl Aguigui... has worked side by side with Guam's elected Attorney General to expose those who betray the public's trust. Reducing crime begins with those who are entrusted with running this government.

Chief Aguigui streamlined GPD's operations and re-instituted the Civilian Police Reserve Program... putting more officers in the streets... saving hundreds of thousands in overtime. We also have secured \$700,000 in federal funds aimed at stopping violence against women.

I welcome the efforts of the Chairman of Public Safety, Senator John Quinata to find funding sources for GPD's permanent facilities and along with Senator Ray Tenorio I will work to redefine the standards for all law enforcement on Guam.

I also would like to congratulate Acting Chief Earl Aguigui on his nomination by President Bush for U.S. Marshal. This speaks well of the level of professionalism of our local law enforcement. GPD's loss will be the U.S. Marshal's gain.

Others continue their work at keeping our government answerable to you. Public Auditor Doris Flores Brooks has brought to light many questionable practices of the past and underscored the precarious state of Gov-Guam's finances. I applaud Public Auditor Brooks for her outstanding work in upholding the integrity of our government.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

I also would like to thank Acting U.S. Attorney Fred Black and the hard-working men and women of his office, the FBI and other federal agencies... for exposing those who violate the people's trust. Transparency in government is the foundation upon which our democracy is based. I congratulate Attorney Lenny Rapadas on his confirmation as Guam's new U.S. Attorney... and look forward to the same level of standards that have already been set.

REV AND TAX:

Those of us who pay our taxes on time have been unfairly bearing the burden for those who haven't. Under our tax director, Art Illagan, we are changing all this... The Department of Revenue and Taxation is aggressively pursuing those who have not paid their fair share – and they will be held accountable— a concern echoed by Senator Bob Klitzke. We are working to increase the manpower and resources at Rev and Tax... so they can accelerate and broaden their enforcement.

But we will do more than collect overdue taxes. For the first time in nearly a decade, we are working to release your tax refunds on time this year – and it will be possible because of the recent Revenue Bonds. Tax refunds are your money. The government has withheld \$143 million of your money for far too long. It is time to put your money back into your hands.

ORDOT AND ENVIRONMENT:

Protecting our community isn't limited to law enforcement... it includes our environment. Funding the closure of Ordot landfill and the opening of a new one will save millions in fines... protect our community's health... and put behind us a problem that has literally been piling up.

Extending the use of a landfill starts in our daily lives. Today, I signed an executive order requiring mandatory pre-sorting and recycling in government. I commend Senators Joanne Brown, Rory Respicio and Tina Muna Barnes for their aggressive approach to protect the environment.

We will outsource landscaping of our roads and public facilities--identifying areas for companies, neighborhoods or citizens to adopt and maintain. There are solutions that are not found in the

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

vastness of government, but in the good will of our own people...People like small business owner Tony Lujan and the Thunder Road Motorcycle Club who adopted a portion of Marine Drive and now uses their time and resources to beautify and maintain a small piece of Guam for all of us... Or the hundreds of citizens who joined us on weekends to rid our island of unsightly litter as part of our Na La Bonita Guam project. Everyday heroes who offer their time and effort to restore our paradise. Our thanks to Tony Lujan and the thousands of unsung heroes.

HOUSING:

We embrace the traditional values of caring for our elderly and those challenged in life. We are going to build new senior citizen centers in Malesso, Agat, Piti and now in Agana Heights... thanks to Senators Larry Kasperbauer and Tina Muna Barnes for introducing bills that would transfer land from GWA to the Agana Heights Mayor so we can begin construction on this village's Senior Citizens Center. We are also building a new Dementia Care Center in Dededo... a new homeless shelter for Catholic Social Services... a new facility for the Salvation Army... and new Head Start Classrooms for public schools.

Likewise our DYA Director Chris Duenas is administering millions in federal funds – carrying on work started by former director Senator Rory Respicio - to construct a new DYA Cottage Home and a Youth Correctional Facility.

My Administration also restored federal funding assistance for our elderly and disabled as well as revived Temporary Assistance for Needy Families... to assist nearly 500 residents by June. The true measure of a community is found in its treatment of the elderly or disadvantaged.

EDUCATION:

While our economy and government's financial situation has touched the lives of everyone on island... Lt. Governor Moylan and I have worked to shield our children from the worst of it. Under a law authored by Senator Larry Kasperbauer... we are working with the Education Board you elected along with Chairperson on Education, Senator Carmen Fernandez, to create a school system that teaches our children to excel... For the first time in the history of our elected

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

government, the education of our children is in the hands of educators you choose and the superintendent they select.

Our protection of the school children began with my exemption of classroom teachers from the reduced workweek... It continues with the return of Yigo land to DOE for temporary classrooms for JFK students.

We must revisit our approach to public education. If we expect our children to succeed then we must give them the tools they need. We have long known that DOE's challenges are greater than money – even when DOE had all the funding it requested, our children still sat in dilapidated buildings without enough supplies or textbooks.... And test scores ranked among the lowest in the nation. More of the same is simply not good enough.

Today, I am calling for an aggressive new approach to the education of our children. We will be presenting my Administration's Classroom Empowerment Act to the Legislature. I ask Senators for their support.

It requires that the School Board implement a site-based management program and that next year... DOE's budget be appropriated by individual schools. It involves leasing school land to developers in exchange for building and repairing schools.

If enacted it will return many of DOE's administrative functions to Department of Administration... to reduce duplication of services and free more money for classrooms. By doing this, we will place the principals, teachers and parents where they should be – at the helm of our children's education.

The Classroom Empowerment Act earmarks 90 percent of DOE's budget for the schools. DOE's central office will serve the basic functions of Accreditation, including Planning and Development; Curriculum; Teaching Standards and Testing. We must ensure that each student's performance is properly tracked and our curriculum is consistent with national standards.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

This is the level of authority that the schools have cried out for – it is time to return this authority to them. As Governor, I will not stand by and allow another generation of children to suffer from the ineptitude of government bureaucracy.

But decentralizing DOE is not enough. Outsourcing cafeteria and maintenance services as mandated by Senator Jesse Lujan’s budget amendment--will save millions – money that would be better spent on teachers, textbooks and schools. The northern public schools have outsourced cafeteria services – resulting in a double-digit increase in student patronage...and a 28 percent decrease in the cost of children’s lunches... who now choose from a larger variety... that meet federal nutritional standards and save \$450,000 in just these schools. Our schools cannot afford to stay in the restaurant business and must return to the business of teaching.

We must also build more schools with smaller student populations. Our children are forced to learn in crowded classrooms in old and potentially unsafe buildings. Our challenge is to find innovative solutions; like using the JFK and Chief Brody property to build new schools.

We are finalizing an invitation to bid for any investor willing to lease the property of JFK and Chief Brodie. This is the wise use of government land... in the heart of our busiest commercial district... and it will provide the funding we need to build new schools. The proposal will require the developer to construct a convention center to showcase our unique culture for residents and visitors alike. Under my administration, education and cultural preservation will thrive alongside economic prosperity.

Our people can make no better contribution than to invest in our children’s future. That’s why, beginning this year, half of the Liberation Carnival proceeds will be dedicated to a textbook fund. The First Lady will also start a book drive to replenish the school libraries. I ask for your support in this.

We will create new industries from higher education. I recently wrote to U.S. Senator Conrad Burns to assist UOG in becoming a computer economic center. Working closely with Senator Burns, I was successful in including Guam with the State of Virginia to be part of the appropriations budget for 2004 that develops a revolutionary nationwide program called Map

R.O.I. Map R.O.I. provides data on government procurement, available federal grants, market intelligence and business development tools... to help companies turn marketplace knowledge into increased sales. It also helps our government and private citizens obtain more grants and assistance. This economic stimulus package will provide approximately \$20 million dollars extended over five years to the University of Guam to house and train technical personnel to implement this program.

We are also supporting UOG's efforts to elevate the marketing of UOG and GCC to students in Asia, as part of our efforts to increase outside funding for education.

HOMELAND SECURITY:

However, we must measure our steps to broaden our markets with a caution deserving of these times. Because of the September 11th terrorist attacks, the Liberation of Iraq, North Korea's nuclear threat and now SARS... our gateway agencies are making huge investments in labor, equipment, computers and infrastructure to further safeguard the security and health of our island and our nation.

The Guam Airport, the Port Authority, Customs, GMH, Public Health and Homeland Security have all made adjustments to ensure our readiness to avert threats dictated by world events.

My administration obtained 6-point-4 million dollars in federal funding for our local Office of Homeland Security. This money will be able to outfit 100 percent of our first responders to protect our community. This includes threats of bio and chemical hazards, the ability to decontaminate and to upgrade the communications capabilities between emergency response agencies. Our people can now sleep better at night knowing that Guam is on the cutting edge of our nation's war on terrorism.

We have secured even more federal funding to train and equip our fire fighters.... And we will soon be purchasing two new fire trucks and four ambulances using lapsed compact-impact funds.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

The Guam Airport continues to pursue federal grants and funding to develop new services and expand existing facilities. Law enforcement and auditors are investigating the management practices of the past and ensuring that checks and balances are restored.

Over the next 18 months, the Airport will release more than 50-million dollars for typhoon-related damage and other capital improvement projects. This money will jump start our construction industry and restore jobs for skilled labor and professional services.

The Director of the Port Authority of Guam, Joe Mesa is also making concerted efforts to bring our port size and costs in line with its financial realities... We will continue to pursue privatization of some of its functions... such as outsourcing the purchase of the port's gantry cranes. We also have received 1.2 million in federal funding from the U-S Department of Commerce for the design of the hotel wharf expansion.

The agencies responsible for the gateway to our nation and our island have all taken measured steps to improve their facilities... and guard against the threat of terrorism. But in today's world – we must defend our shores from more than those who wish to threaten our freedom.

HEALTH:

The

emergence of Severe Acute Respiratory Syndrome (SARS) has heightened public concern of our community's health. With an economy based on Asian visitors and our close proximity to some of the areas hardest hit by this new disease... Guam has been quick to take precautions to isolate and respond should this virus reach our shores. I commend Public Health, Customs and Quarantine, GMH and the island's medical community for their proactive work. Today Public Health officials work side by side with Customs agents —greeting flights from high-risk areas. As a gateway to our nation and region... we must be ever vigilant in our efforts to keep Guam and our nation safe.

The work of our health care professionals highlights the need to achieve accreditation for our island's only civilian hospital. The rightsizing of GMH by its Board and Acting Director Bill McMillan is just the first of many steps.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

We are now reviewing a refinancing package for GMH that combines federal assistance with national insurance interests to restore accreditation to hospitals... another example of local and federal government partnering with the private sector to improve services.

We are also creating a community health consortium... to outsource services to clinics that already can and do provide this care. This program reduces the funding necessary for our government-run hospital... and is a step toward a privately run institution that could co-exist with GMH.

I also ask the Legislature to support my upcoming bill to establish an Arbitration Center on Guam. This center will take advantage of our United States Territory status... and the stability of our justice system. It will be a center for international arbitration. This act will be expanded to address the concerns of our medical community... by providing an alternative to resolving medical malpractice issues... substantially reducing medical professionals exposure and ultimately the cost of healthcare for Guam's people. I want to thank Presiding Judge Lamorena, Chief Justice F. Phillip Carbullido, and Senator Randy Cunliffe for their work on this worthwhile project. Our role as America's gateway to Asia... can bring many benefits beyond an arbitration center... especially in this changing world environment.

MILITARY RELATIONSHIP:

The economic rearmament of Guam continues through increased military presence on island.... One that doesn't endanger the return of unused land deemed excess by the military and the United States Congress. I have met Major General Dennis Larsen of Andersen Air Force base -- Rear Admiral Patrick Dunne, the Commander of Naval Forces Marianas, -- and the U.S. Marines Corps Commandant, General Michael W. Hagee, who all support increased military operations on Guam.

The recent visits by the Aircraft Carrier USS Carl Vinson, the stationing of two fast attack submarines, the staging of B1 and B52 bombers, the F-15 and F-16 Combat Aircraft and the recent Tandem Thrust Military Exercise all highlight Guam's value to national defense and benefit our economy.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

Our administration is working closely with the military to allow greater local participation in support of their mission. Preliminary work is already underway to expand Apra Harbor's capacity. Already military construction on Guam has exceeded more than 100-million dollars.

Working with the Commander of Naval Forces Marianas we are on the threshold of relocating our Barrigada Fire Station and securing four ambulances from the Naval Hospital.

I want to thank the military command for their willingness to help in this and so many other local projects. Your contribution to Guam goes far beyond your call of duty.

In return, our island is doing all that it can to support our nation's defense... And that is part of the message I took to our Commander in Chief.

STRENGTHENING FEDERAL TIES:

Two days ago, I returned from a trip to Washington D.C. where I met with President George Bush. The President took time away from world events – to embrace Guam and other territories' needs. To show his concern for the territories... he signed an executive order establishing the Interagency Group on Insular Affairs. In the previous Administration, the president had only done this through an inter-agency memo. With the executive order in place – the Interagency Group now will transcend into future presidential administrations. The Interagency Group will ensure that the needs of Guam and the other territories are supported at the Cabinet-level. Our message to Washington is being sent and our voice is being heard by the Republican Administration and Majority in the House and Senate.

I also met with the Department of Interior and asked for \$500-thousand dollars in technical assistance... to help us develop our economic stabilization plan, which will build the framework for the economic recovery of our island. I then spoke with officials at the Department of Health and Human Services and requested nearly \$1 million dollars in the form of a social and economic development grant. The funding will be used to help implement our economic stabilization plan diversify our economy and bring investors to our shores.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

While in Washington I also visited with members of the President's cabinet and leaders in Congress... to reestablish Guam's role as the Nation's gateway to Asia... and its frontline of defense. Together with Congresswoman Madeleine Bordallo, we secured commitments by Chairman (Duncan) Hunter of the House Armed Services Committee and Chairman (Richard) Pombo of the House Resources Committees to conduct Congressional hearings right here on Guam. This is an historic first... and gives our people the opportunity to have their voices heard by the very men and women who make decisions that affect our island.

I worked with Interior to identify \$6 million in infrastructure funds for Guam.... I began the push for \$50 million more in federal funding assistance for highway improvements and for Guam's fair share of the \$50 million in federal funds for tourism promotions.

We are now administering millions in federal funds that will create jobs and circulate more money into our economy. We have already found some \$5.7 million in set aside funds... and are seeking \$50 million more for highway improvements.

We reached out to the nation's leaders and they have embraced us. From the President and his Cabinet to the House and the Senate – the message was clear: Our voices are being heard and help is on the way.

BEGINNING OF HOPE:

We have done much in our first one hundred and twenty eight days in office. There is still so much more to be done to bring our government under control... to stabilize and expand our economy... and make the changes that benefit our entire community.

I have already spoken about two of the three major initiatives that we have or will embark upon—controlling government costs with reorganization, as well as Classroom Empowerment for education. Through outsourcing, privatization, reorganization and strong financial management... we will permanently reduce the cost of government and address the long-term fiscal challenges presented by federal caps and the retirement funds growing unfunded liability.

ECONOMY:

However to truly achieve all this... we must revive and expand our economy – and restore stability to the lives of Guam’s families. The way to improve your lives,... the schools that teach your children,... your basic services,... and the quality of life... is to stabilize and expand our economy.

ECONOMIC STABILIZATION PLAN:

On March 19th, I unveiled my Economic Stabilization Plan... to stop the downward spiral of Guam’s economy and to position our island for new growth in the near future.

Our plan represents a realistic, incremental and measurable approach designed to create thousands of jobs... and restore revenues... with an economy that circulates more than \$3 billion dollars annually. While our goals are aggressive, our process is deliberate... measured by results.

There are clear steps that must be taken to stabilize our economy.

First, we must aggressively market Guam’s number one industry – TOURISM. Sixty cents of every dollar in our economy comes from tourism... By reinvesting in our primary industry we are investing in everything else. That is why I am asking the Legislature to increase the bond amount to cover \$25 millions more for visitor marketing over the next two years. Our competition -- like Hawaii -- has already invested an additional \$5 million in Japan for post-war marketing alone. Reviving Guam’s tourism industry will bring as many as 3,000 jobs back.

Guam Visitor Bureau General Manager Tony Lamorena and the GVB Board have arranged for a series of media events... with the assistance of the Guam Hotel Restaurant Association... to heighten their awareness and appreciation of our island. GVB and other organizations are reevaluating Guam and the way we market our beautiful island.

Tonight, I will join the Guam Visitors Bureau on a trip to Japan to begin marketing Guam’s summer campaign. Through the cooperative efforts of my Administration, travel wholesalers,

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

travel agents, airlines, retailers and hotels,... we are targeting 180,000 visitors this summer. This will generate \$189 million dollars in our economy.

We will expand tourism and trade in a way that safeguards our U.S. democracy and the health of our island and nation. We will reach out to the world's largest market – the Republic of China – in a way that won't compromise the security of our nation, the values it upholds and the health of our people.

The Republic of China could potentially double our tourism arrivals and investment in two years. However, the health of Guam, our nation and China must remain our primary concern as we explore expansion into this new market. I ask that we keep the people of the Republic of China--and other affected areas... in our prayers as they fight to overcome the dreaded SARS virus. I am confident that the world's medical community will find a cure to stop this threat of SARS.

We will adjust our marketing to include areas like sports tourism. In February, I met with the President of the Yomiuri Giants to invite the team to conduct pre-conditioning training on Guam. Nearly 300,000 visitors and over 2,000 reporters covered the Giants Spring Training in Miyasaki Japan. Even if we only host a third of those people, it would increase our arrivals by ten percent... and increase Guam's exposure in Japan... at no additional cost to our people.

Private entities – such as Leo Palace – are already tapping into the Sports Tourism Market, with their new world-class Olympic sized swimming pool, which just finished hosting Japan's swimming federation. Our local soccer organization has received more than half a million dollars from FIFA, the International Soccer Organization, to upgrade the facilities at the Robbie Webber Soccer Field – providing unending opportunities for our local and regional teams.

Our little leaguers are on ESPN ... Guam is the home of the world Jet Ski champion ... Guam competes in the Olympics. Our athletes have traveled to all corners of the world to compete – it's time to bring the world of sports to Guam.

STATE OF THE ISLAND ADDRESS

Governor Felix P. Camacho

May 13, 2003

In line with all of this work, I would like to thank Senator Lou Leon Guerrero for authoring the law, which I recently signed, establishing the Sports Tourism Taskforce to develop and promote this promising market.

We also are focusing on the military market. More than 80,000 troops and family members are stationed throughout Asia – all who need some time for a little R&R. I can't think of a better place for them to visit than the island where "America's Day Begins."

But we won't stop at stabilizing our economy. Our goal is to diversify and increase Guam's economic base – expanding beyond our current potential.

TRADE AND NEW INDUSTRIES:

We will focus our efforts on beautification and offer new attractions, such as Hagåtña Revitalization and the expansion of the Gregorio D Perez Marina.

Our administration is working closely with the Fisherman's Coop to develop local fisheries and expand the Gregorio D. Perez Marina. Working with the President of the Guam Fisherman's Cooperative Association, Manny Duenas, we have already identified \$2.5 million in federal financing for the Hagåtña Marina project. We support their efforts to expand local fisheries... and develop pier-side restaurants, shops and other attractions for our local cottage industries. I will revisit the concerns of both the Fisherman Co-op and GEDCA to remove any obstacles. Fisheries are a greater step toward Guam's self-sufficiency... and a key component of our economic expansion.

We are bringing in additional federal funding that Guam has not pursued in years... and are now asking for Guam's fair share of federal funds... that other states and territories have been receiving.

We are pursuing changes to federal restrictions that unfairly target Guam,... such as Headnote 3A and IRS Section 30A. Once successful, we then can compete on equal footing with other states and territories for international business.

We are finalizing plans to implement the Investment Visa Program that allows non-citizens to invest a minimum of \$500,000 into our island... in a company that employs 10 local people, in return for their Visa. This federal INS program helps local companies who need additional financial infusion. GEDCA will begin screening local companies for potential application.

I will pursue the Western Pacific Regional Governor's joint agreement to track long line fishing vessels within the Marianas and Micronesian economic zones. This will increase fish transshipment—increase the use of both ports of entry facilities and take advantage of our USDA inspection and approval.

We continue to seek federal funds to support the Guam Small Business Administration and the UOG Small Business Development Center whose incubator program I created. They have assisted thousands of local businesses—stabilizing our economy and fostering the dreams of our local entrepreneurs. Following Super Typhoon Pongsonga, SBA was at the forefront of helping our citizens rebuild their lives.

Next month marks the 50th anniversary of the Small Business Administration. I congratulate Ken Lujan and the Guam SBA office for all their work in promoting small business development on Guam.

Small business are the foundation of our economy... they employ the most people... adjust readily to the changes in the economy... and more importantly they allow our people to achieve their dreams. There is nothing small about the contributions these businesses make.

Today we are also aggressively pursuing and exploring other industries for our island. The Guam Economic Development and Commerce Authority is working to attract new industries from the world marketplace. Our proximity to Asia... the fact that we are an American community... and our telecommunications capabilities... all make Guam a very attractive investment. Together, we must strengthen GEDCA's ability to offer attractive and competitive packages to multinational companies who are looking for new markets.

Telecommunications, light manufacturing and other services have already expressed their interest in coming to Guam. But we must offer a better incentive package to match or beat our competition, such as Singapore and Taiwan.

But while we invite people to invest in our island, we must also fix our home. Our utilities, roads, and ports of entry must be reliable. We must transfer what services we can... to private sector companies to circulate tax revenue back into the economy... to create even more jobs. For example: Outsourcing the port's gantry cranes will spur port related activity and a new transshipment industry. We are moving toward the partial or full privatization of all utilities, ports of entry and other areas previously mentioned.

That's why I transmitted on April 14 proposed legislation to repeal and amend the provisions of law that prohibited privatization and reducing the cost of government. I ask for your support.

We are also moving GovGuam agencies out of Tiyon to circulate more tax dollars in Guam's economy.

Ultimately, Government must stop using public resources to compete against private enterprise.

Another part of our Economic Stabilization Plan includes pursuing increased military presence on Guam... and embracing our role as the United States' front line of defense. We are continuing to make the case that Guam welcomes additional military presence such as a full Air Wing for Andersen, a Carrier group for the Navy and the shifting of Marines from South Korea to Guam.

Finally, our government must remove outdated regulations and red tape that only serve to stifle the growth of our private sector. We must provide a business-friendly environment in our government... because one of our missions is to foster success in the dreams of the people it serves. That is the basic foundation of free enterprise.

This is our Administration's framework for recovery and expansion of Guam's economy.

There are many challenges ahead of us all. But there are also exciting times to come... as we will all play a part in laying the foundations for a stronger economy... a more responsive government... and an island community that supports the needs of all our people.

ENDING:

There comes a time when doing the right thing requires a fundamental change in the way we think, act and respond. Not in leaps and bounds – but in measured steps. This is that time ... a turning point for Guam and her people to set things right and fulfill our destiny – a time for boldness to bring success, prosperity and abundance to all.

In a crisis, it's hard not to be caught up in the anxiety around you, but we must not get so embroiled in the present that we forget the future. We as leaders must look beyond surviving and focus on achieving. This crisis presents us all a chance to stop wondering about our future and start making it happen. Our people depend on our leadership to navigate our way out of this social, economic and financial dilemma. Anyone can steer the ship, but it takes a leader to stay the course.

Let us reset the boundaries of our government, renew its purpose, and reshape it to one of service and stewardship. Personal choice and self-reliance are the hallmark of freedom and the root of our history.

We have set out on a course to restore the confidence of our people and the world in our island. United we will not fail and the sacrifices we make will only lead to a greater Guam.

This is not our darkest moment, but our finest hour. And when our time is past, future generations will know that we returned government back to the people—and restored our people back up to the height of their prosperity.

What determines our fate – chance or the choices we make? I want to share a little story with you about a *Magalahi* of years past who told the children of his village a story relating to this question.

He said that every day – two dogs – one mean and angry, the other kind and friendly – fight for control of his spirit.

“Who wins?” blurted out the kids.

The chief laughed. “Which ever one I feed that day. We choose the reflection our spirit will cast to the world.”

We as Guam’s leaders all have the opportunity to choose the spirit we will feed. One is the negative, defeatist, helpless spirit or the other – a kind, friendly, positive and optimistic spirit.

I say we stop feeding the negatives of the past and instead – feed the promise of a better tomorrow.

This is my prayer for our people... “If my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from Heaven and will forgive their sin and will heal their land.” (Second Chronicles 7:14)

Thank you... God Bless Guam, God Bless America. God bless us all.

2003 INAUGURAL ADDRESS
GOVERNOR FELIX P. CAMACHO

Governor Felix P. Camacho

Inaugural Address

January 6, 2003

My Fellow Citizens of Guam,

Today, we are faced with great economic, natural, and social hardship. There is not a person within the sound of my voice who hasn't felt it. It is the underlying tone in every conversation. Each and every one of us must now work together to overcome them. We assume office amid the clamor of sobering world events—that touch our shores... and impact the lives of our people. But what we face today pales in the shadow of what our parents and grandparents faced before us.

We are all the children and grandchildren of a great generation—who with an unwavering faith in God... rose from the rubble of the greatest war ever fought—and took our island to new heights of prosperity. This is that time...

Today our administration lays the foundation for a greater Guam;

--achieving greater self-sufficiency for our island; fostering stronger industries and developing new ones to bring about prosperity without compromising the family values of our island;

--fixing our water, power, schools and health systems and improving the quality of life for Guam's people;

--defining the framework of our government and the services it delivers with a commitment to excellence;

--removing any economic, social or religious limitations – finalizing our political status and fully embracing our role in national defense and as a leading island in the pacific region.

Today, Lt. Governor Kaleo Moylan and I assume our place in this government as servants of the people. Through the efforts of Governor Gutierrez, his outgoing administration and our staff, we have completed a transition reflective of the democracy we defend and the cooperation we must enhance. My heartfelt thanks to Governor Gutierrez, his staff and our own transition team.

We look forward to working side by side with the incoming 27th Guam Legislature, Congresswoman Madeleine Bordallo, the mayors and all of the leaders of the island, both in

the public and private sectors. Together we must restore the peoples trust in government to carry out its mission.

We will foster a long-standing relationship between the local community and the federal government as well as the local Navy and Air Force commands. Each is an important part of Guam's family. Working closely with the Bush administration, the U.S. Congress and military leadership we will show that what is good for Guam is good for our nation. Together let us forge ahead and build a stronger future for our island. We will show the world that self-government, freedom, prosperity and the nation's defense of these values—can and will—flourish side by side. There is much work to be done and many long-standing issues to resolve, and by working together we will accomplish great things like our forefathers did.

Thirty-three years ago our island took a giant step forward in self-government, when Guam's people elected their first Governor and Lt. Governor – Carlos Garcia Camacho and Kurt Scott Moylan. Last night, standing before God and man – we, their sons, took the same oath of office our fathers did then – to uphold the laws of our land... and serve in the best interest of the people. The sacred trust the people have bestowed on Kaleo and me... to carry out the duties of the elected office our fathers first held... is further strengthened by our commitment to uphold the standards of excellence they set.

Their legacy was one of open government... with a unity born from a willingness to listen to all sides...in the best interest of all people. They nurtured a new generation of leaders – providing an opportunity for the best and the brightest to serve Guam's people—regardless of their party affiliation. We their sons are now called to follow the example they laid before us.

As our fathers taught us – in the end, all we have as your elected leaders is our name, our character and our integrity. We will fulfill our promise of hope, of accountability, honesty, integrity, trust and fairness in our call to serve the people.

I place my trust and fear in the Lord—and will do all to serve the people of this great island, for God's greater glory. We will achieve success, prosperity, abundance and peace in this land. My prayer to god is that we as a people do what is right and just; and as we call on the name of the Almighty, he will hear us and he will heal this land.

Thus—strengthened by the examples of our past—emboldened by the urgency of our times, a great undertaking has been passed to a new generation of Guamanians. Do not look on these days of uncertainty as Guam's worst... for Kaleo and I know...this will be our generation's finest hour.

Against all odds, in the face of doubt and despair, we are each called to action –to step forward and succeed where many say we can't. The time is now – the place is here—the people are you and I.

We must pass on to the generations that follow a greater Guam than we inherited. A community centered on faith and family... freedom and prosperity... justice and equality. Our success will not only be measured by the improvements we make, but by the society we leave behind.

Today our island is confronted by one of the longest sustained and deepest economic declines in our history—testing our faith and driving many of our own families from the island they love.

This island is faced with double-digit unemployment... and a skittish world market. This has devastated the struggling young, the fixed-income elderly, the quality of our children's future and the delivery of government service -- demoralizing our community. We must act now...and act we will.

Our administration will invest in the dreams of Guam's people;

- Providing support to bolster existing industries;
- Incentives to create new ones;
- Increasing Guam-made products;
- Developing international, national and regional trade and markets;

Our government must no longer compete against...nor undermine... the private citizens and free enterprise that creates its revenues. Instead we will use free enterprise to out source traditional government duties at less cost, for more benefits, with greater value. The more we circulate capital through the hands of private citizens the greater the potential for growth and success.

Government must enhance the lives of our people. Its successes have been too few and too isolated. Its failures has been far-reaching—affecting the very quality of life on Guam. Our government's primary mission has been over-extended, convoluted, duplicated and confused.

--and attracting new investment.

Our government must recognize its role and effect on our economy. GovGuam can no longer insulate itself. It must pay its bills, --honor its agreements,-- and stop using the power of government to exempt itself from its obligations. We must and will bring government to the 21st century through technology and innovation – providing the information we need and making our government accountable to the people.

We must and will reorganize it in a way that serves the needs of our people and reflects the reality of our times – reducing the size of government and its costs, ... improving services... and to live within its means.

Our government can no longer be all things to all people. This false expectation dilutes our basic services and blinds us to the realities of our times. We will combine the best talents of

public, private, federal and non-profit organizations to bring the changes our people need and rightfully deserve.

Public service is a sacred duty—serving all people first and foremost- fairly and equitably. We will call upon the energy, creativity and sense of duty of dedicated public employees—a resource long ignored – to raise the standards of public service. We have faith in the employees of our government to bring about the changes we need. They will do more with less—work smarter and progress further and quicker than you or they imagine. Our government will become a vanguard of trust and symbol of efficiency... focused on you, your family and the basic things in life that mean so much.

We are going to build a community-based education system focused on each child's success and promote family values;

- restore reliable and consistent water and waste-water service, ... and provide health care centered on our people's well being;

- enforce laws that serve and protect all;

- design welfare and public assistance to give the underprivileged a step-up and a way out;

- foster new industries that employ our people and allow them to pursue their dreams.

The role of government is to serve the people, deliver essential services and provide for the basic needs of our community. This is our duty. This is our charge.

It will take hard work and shared sacrifice to overcome the challenges before us. For too long the focus has been on the problems, ... rather than solutions - intentions rather than results. It is a time to set aside our differences –and work side by side – to get through the difficult days ahead. United we will not fail. And the sacrifices we make...will only lead to a greater Guam.

Today the work of recovery continues. Although Super Typhoon Pongsona devastated our land, it has strengthened our spirit. There is not one among us who did not at some moment cry out to god for mercy as we were reminded of his amazing grace and our human frailties.

A kindred spirit of compassion, cooperation and unity was rekindled... and in those darkest hours...a real change...a turning point for our island began. Competing private, public, local, national, cultural and political interests were set aside in the interest of helping one another.

Our heartfelt thanks to president bush's administration, the federal government, the many non-profit organizations, Guam's businesses and government agencies-and especially all the public and private sector employees who sacrificed their own family's needs... and the many who still continue to work day and night... to restore our island. We have seen the best step

forward in these worst of times. But unity cannot be reserved only for a crisis because divisiveness is the greatest crisis of all. I tell you truly- the greatness of our people has always been our willingness to help each other in a time of need. That continues to be our focus.

We as a people must now act upon the reasons why we should, rather than accept the excuses why we can't – we are called to encourage dreams of the future rather than perpetuate doubts of the past – to discuss, debate and then once decided – commit to do all we can to make it work. We can no longer be victims of our self-imposed limitations, lulled by false humility or easily discouraged by the lack of immediate success.

We must be certain of our cause, persistent in our demands and never, ever, give-up. “seek and we shall find. Knock and the door will be opened.”

Each of us has a choice to make. To move beyond past wrongs and correct them-to prevent rather than punish – to teach rather than belittle – to listen more openly and honestly – to speak in a way that lifts up and encourages. We should talk less about each other and more to each other, building success on the strength of our hands and the worthiness of our goals. People of good will... working together... will do what is right.

So now comes our test in time -- to silence the voices of doubt with the success of actions. A time for the dreams of Guam's everyday heroes who go to work-or raise their family – or help neighbor and stranger alike...who rise each and everyday, ... to make today better than the day before. A time for our people to bring about a greater Guam and lay the foundation of a government that serves the people with a standard of excellence and integrity. This is our hope. The night is gone and a new day has begun.

As a community united, I call on each and every one of you... to join Lt. Governor Moylan and I... in serving the greater good of our island... for all our people.

This is our time; let us answer the call with pride,...certainty... and the spirit of perseverance that is the hallmark of our generation be this... that we overcame insurmountable challenges, ...with an unwavering faith in god, ... united in our purpose, ... and that we did what was right and just.

As the Governor of Guam, I offer this prayer for all of us...from Second Chronicles 7:14... “if my people who are called by my name, would humble themselves, and pray and seek my face, ... and turn from their wicked ways, then I will hear from heaven, and forgive their sins and heal their land.” God bless you and your family. God bless Guam. God bless the work we begin today.
