1990 CENSUS

CPH-L-156

Detailed Cross-tabulations for the U.S. Virgin Islands

This listing contains data from the 1990 Census of Population and Housing. The 91 tables provide detailed cross-tabulations of population characteristics for the U.S. Virgin Islands. Selected general, social, and economic characteristics are cross-tabulated by age; race; place of birth; educational attainment; labor force status; occupation; industry; and income in 1989. The data contained in this tabulation was collected on a 100-percent basis.

These tables are available on flexible diskette for the U.S. Virgin Islands and each island (St. Croix, St. John, and St. Thomas).

Questions concerning the content of this listing or purchase of data on flexible diskette may be directed to:

Nancy Sweet
